World Map

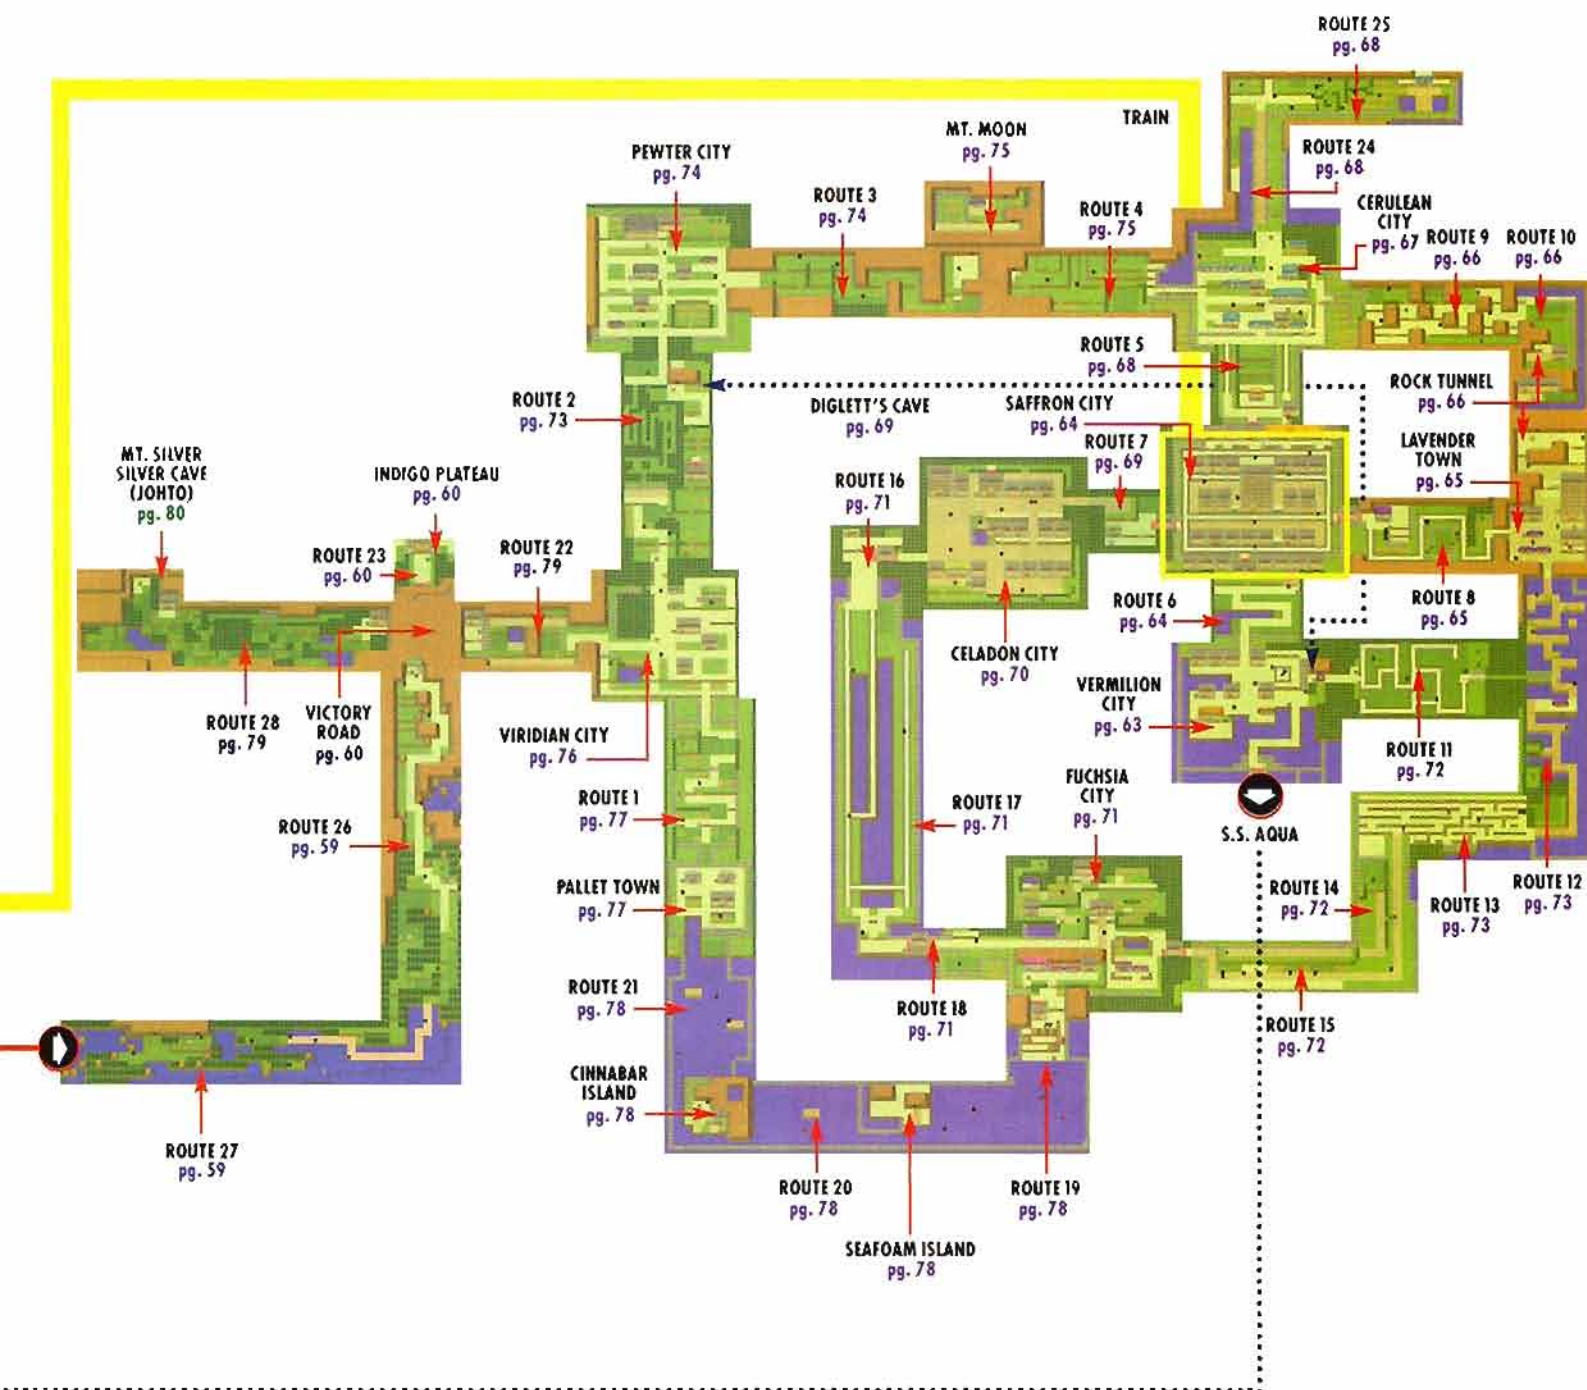

Your Pokémon adventure begins in New Bark Town, located in the new world of Johto. Pokémon Crystal, Gold and Silver also feature the world of Kanto, which originally

appeared in Pokémon Red, Blue and Yellow. To reach parts of Kanto, you must Surf to Route 26, ride the S.S. Aqua or take the train from Goldenrod City.

JOHTO

KANTO

Rise of the Pokémaster

The life of a Trainer is an adventure filled with battles, travels and discoveries. You'll need to depend on your Pokémon to see you through the many challenges you'll face, so learn to use them wisely. Though you may not know much when you begin the journey, you can look to friends to teach you lessons along the way.

COMING IN CRYSTAL CLEAR

The three initial versions of Pokémon—Red, Blue and Yellow—offered variations of the same exciting adventure set in the land of Kanto. After those games came Gold and Silver, which introduced a new Pokémon journey set in the land of Johto (as well as featuring a shorter Kanto adventure). The latest Pokémon game, Crystal, is a variation of Gold and Silver, and it adds some new twists to the Johto journey, such as new item locations. If a tip appears in blue, the info relates to the Crystal version only. All other tips apply to all three Johto games—Gold, Silver and Crystal.

RED

BLUE

YELLOW

Designed to be played on the original Game Boy and Super Game Boy systems, the first three versions of Pokémon started the craze to catch 'em all.

GOLD

SILVER

CRYSTAL

Gold and Silver follow up the adventure in Red, Blue and Yellow with a new, full-color Pokémon journey populated by new Pokémon. Even experienced Trainers will find plenty of surprises and challenges.

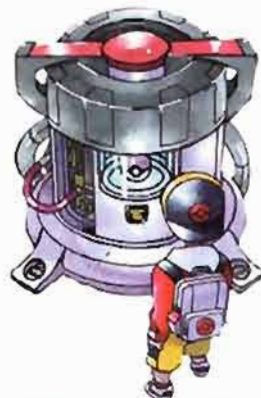

Crystal is a variation of Gold and Silver. Some parts are all new, such as the Battle Tower. Crystal is for Game Boy Color only.

PRECIOUS PAKS

Gold, Silver and Crystal sport a slew of Pokémon you won't see in Red, Blue and Yellow. You'll find the unique creatures scattered among the more familiar Pokémon as you make your way from battle to battle. Try your hand at new attacks and witness surprising evolutions while filling your Pokédex with the latest discoveries. Along with the advances in Pokémon studies comes technological innovation. Ever since Red, Blue and Yellow first appeared, scientists have been hard at work concocting new inventions—like the multipurpose Pokégear your character wears—and improving old ones to help you collect and maintain your Pokémon.

Dozens of Pokémon that don't appear in Red, Blue and Yellow pop up in Gold, Silver and Crystal, so you'll have plenty of reasons to take up the Poké Ball again.

Once you've earned the right to use them, you'll be able to use the Time Capsules in Gold, Silver and Crystal to trade Pokémon with the Red, Blue and Yellow versions.

HERO

Red has already made a name for himself by the time Gold and Silver begin, so you'll have to step into the shoes of another promising—but untested—Trainer. It's up to you to prove his greatness.

NEW HEROINE

A new Trainer is leaving New Bark Town to become a Pokémon Master. She's ready to catch 'em all, and you can journey through the Crystal version as the new heroine or as the boy hero from Gold and Silver.

RIVAL

What is this guy's problem? If you ask him, the problem is YOU. It's usually best to avoid people like him, but the game doesn't give you the option. Settle your conflicts using Pokémon.

BATTLE YOUR WAY TO THE CHAMPIONSHIP

Until you start building up your Pokémon and winning battles, you're just one more ambitious Trainer in a world filled with like-minded enthusiasts. The other Trainers you'll meet will be happy to test your skills for small wagers and, sometimes,

major prizes like Hidden Machines (HM). The battles will get tougher as you progress from town to town.

It takes more than skill to be a successful Pokémon Trainer. You'll need supplies. Stop by the Pokémon Mart to pick up Poké Balls and other goodies.

Stay sharp when you wander into new towns—there may be interesting challenges ahead. Seek out Gyms and other Trainer haunts.

Many of the people you'll meet just want to talk. Others want to do battle. You'll recognize the latter by the exclamation points that appear above their heads.

Even powerful Pokémon need first aid now and then. Take them to the Pokémon Center, where friendly attendants will administer the required TLC.

What?

You may remember Bill from Red, Blue and Yellow, but you might not have realized his major contributions to the world of Pokémon. His research made it possible to store Pokémon electronically.

MOM

I found a useful item shopping, so

Not only does Mom provide you with the moral support every Trainer needs, she helps you save money and buys you stuff. When you win money, send some to the First Bank of Mom.

PROF. OAK

199 POKÉMON seen
45 POKÉMON owned

Widely regarded as the preeminent expert on Pokémon, Professor Oak's consulting services are in high demand in Gold and Silver. He'll give you an important gift when you first meet him.

PROF. ELM

ELM: Hey, has that EGG changed any?

If Oak is the legendary master of Pokémon research, then Professor Elm is its rising star. It's lucky for you that his lab is right down the street from your house. Stop by when you start your adventure.

KURT

I just finished your BALL. Here!

A short guy with a short name, Kurt is a renowned Poké Ball craftsman. Bring him your Apricorns so he can transform them into special balls for capturing particular Pokémon.

TRAINING TRENDS

Gold, Silver and Crystal offer a variety of ways to collect and take care of Pokémon. Time plays a much more important role in the three games, and you'll need to embrace some new technologies and discoveries to get the most out of your adventure.

Pokédex

It looks an awful lot like a Game Boy Color, but the Pokédex is a serious piece of scientific equipment. Like the older version of the gadget, it puts important information about Pokémon at your fingertips, plus it has a new look and new features.

Pokémon are added to the Pokédex automatically when you have contact with them. Once you capture a particular Pokémon, you'll get more detailed information

Evolutionary Mode

Alphabetical Mode

The default display mode in the Pokédex shows the proper evolutionary order of Pokémon when new evolutionary species, like Pichu, are added to the list. You can also view them in numerical order or alphabetically.

Pack

It doesn't look very big, but you can put a lot of items into your backpack. Found items are automatically put into their proper compartments in the pack, so you can access them easily during battle. When you have more than one of a specific item, a number beneath it indicates how many you have.

New Day Rising

The world keeps turning in Pokémon Gold, Silver and Crystal even when you aren't playing the game. If you save your game in the daytime then continue it at night, you'll be standing in the same place but it will be dark outside.

Day

Night

When you enter the time and date at the beginning of the game, you'll start a cycle of days, nights and weeks that will continue as you play the game.

Certain Pokémon, like Hoothoot, are found in the wild only at night. Some events happen even less frequently, so pay attention to the day of the week.

Pokégear

After you use your Pokégear for a while, you'll wonder how you ever got along without it. The device is a combination map, clock, calendar, cell phone and radio. It's often the first thing you reach for when you're stuck in the game.

It's always a good idea to check your map when you aren't sure where to go or what to do. It shows your position relative to nearby landmarks. You can also access the map in the Pokédex to show Pokémon habitats.

If you set up your game clock correctly, the day and time in the game should be the same as reality. It's good to know you can check, however.

You won't have to remember phone numbers when you use the Pokégear's phone. Important people are listed on speed dial.

The radio is an optional feature of the Pokégear that you'll eventually earn. You'll find the subject matter compelling, even if you hate talk radio.

Pokémon Center

Most towns have Pokémon Centers that service your Pokémon needs. In addition to healing what ails your embattled creatures, the center also offers free storage, a Trade Center and a Colosseum.

You can carry up to six Pokémon with you at a time. When you have a full load, captured Pokémon are automatically put in storage. Find a Pokémon Center PC to retrieve or deposit them.

If you need to settle a dispute or you just want to engage in a friendly sparring match, step up to the Cable Club Colosseum (Pokémon Club Colosseum in Crystal) to battle another Trainer using a Game Link Cable.

If you want to trade Pokémon with another Trainer, hook up a Game Link Cable to his or her Game Boy then go to the Cable Club Trade Center (Gold and Silver) or the Pokémon Club Trade Center (Crystal).

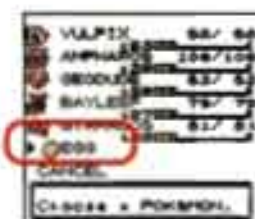

Pokémon Egg

Pokémon researchers have uncovered exciting news about Pokémon reproduction. Pokémon eggs have been discovered in the wild, and it's starting to look like the unhatched creatures are produced by interaction between Pokémon.

You'll notice during battle that most Pokémon have a gender symbol beside their name. Although most Pokémon are either male or female, some, such as Ditto, have no designation.

Anyone familiar with the Pokémon television series shouldn't be surprised that Togepi hatches from an egg, but it isn't an exceptional feat.

NEW ABILITY

Mystery Gift

After a girl in the Goldenrod City department store reveals the Mystery Gift function to you, it will appear on your game's Start menu. Find another Trainer then beam cool stuff to each other through your Game Boy Color's IR ports.

Pokémon Pikachu

Pokémon Pikachu players also have many gifts to share. Use the Mystery Gift function to beam items from Pokémon Pikachu to Gold, Silver or Crystal.

Pokédex Prints

If you want to keep a paper record of all the entries in your Pokédex, select the Print function on the bottom menu to print them using the Game Boy Printer.

Crystal Exclusive

While many of the features and story situations in Pokémon Crystal Version are identical to those in Pokémon Gold Version and Silver Version, there are some great new additions that are exclusive to the latest incarnation of the game. They include new characters, new items and some changes in Pokémon powers.

SECRETS OF SUICUNE REVEALED

Suicune charges to the forefront of Pokémon Crystal. While you might be hard-pressed to capture Suicune in Pokémon Gold or Silver, you'll have the ultimate opportunity to add the Pokémon to your party in Pokémon Crystal. When you enter the Tin Tower with the new Clear Bell, you'll find yourself face-to-face with the elegant and elusive creature.

EUSINE

Before you find Suicune in the Tin Tower, you'll meet Suicune fanatic Eusine several times. The purple-clad Pokémon Trainer will even challenge you to a battle in Cianwood City.

Pokémon Trainer Eusine is exclusive to Pokémon Crystal. He'll provide you with information about his favorite subject, Suicune.

As you make your way to the Tin Tower, in possession of the Clear Bell, you'll face off with the Wise Trio, guardians of Suicune.

Once inside the Tin Tower, you'll meet Suicune. That's the perfect opportunity to add the rare Pokémon to your collection.

UNOWN MYSTERY IN THE RUINS OF ALPH

The 26 varieties of Unown, found in the Ruins of Alph, each represent a letter of the alphabet. In Pokémon Crystal, images of the Unown spell out messages on the walls behind the sliding puzzles. The messages are clues to help you open four hidden passages in the walls. Each hidden passage is filled with four items, such as Mystic Water and Iron. Beneath each hidden passage is a message about the mysterious Unown.

Clues on the walls in the Ruins of Alph offer information that will lead to your discovery of four item-packed passages.

RAINBOW WING VARIATIONS

The Rainbow Wing is your key to finding Ho-oh in the Tin Tower. In Pokémon Gold, you get the item from the Station Manager in Goldenrod City. In Pokémon Silver, you can get it from the old man in Pewter City. The Pokémon Crystal method of collecting the Rainbow Wing requires that you capture Suicune, Raikou and Entei then return to the Tin Tower.

OLD LOCATION, NEW CHALLENGE

In Pokémon Gold and Silver, Blackthorn City Gym Leader Clair asks you to enter the Dragon's Den to retrieve the Dragon's Fang. In Pokémon Crystal, Clair sends you to that cave across the water to take the Trainer Challenge. There, you will answer questions about your knowledge of Pokémon and gain the respect of a master Pokémon Trainer.

The wise Trainer in the heart of Dragon's Den will offer the Trainer Challenge. If you pass, he will reward you with an Extremspeed Dratini.

RADIO REWARDS

A new radio show, transmitting from the Goldenrod City Radio Tower from 6 p.m. to 12 a.m., offers a chance to earn many useful items. Buena, the host of the show, sends out a password on every nightly broadcast. When you visit Buena on the second floor of the Radio Tower and give her the password, she'll give you credit that you can redeem for valuable prizes.

A new radio show broadcasts from the Goldenrod City Radio Tower every evening. If you take note of the show's password, you can earn prizes.

TELEPHONE TIPS FROM TRAINERS

The Pokémon Trainers that you meet on the road will offer to keep in contact with you by telephone. Often, they will call to keep you informed about their progress in Pokémon training. In Pokémon Crystal, some new Trainers whom you have on your phone list will also occasionally offer items such as a Water Stone or a Fire Stone.

After you battle Trainers on the road, you can register their phone numbers to keep in contact with them.

SEE THE SEER

A woman who lives at the northern tip of Cianwood City offers information about all of the Pokémon in your party that you've found in Pokémon Crystal. The Poké Seer will tell you where and when you caught each Pokémon and how well you have cared for it.

TRAIN WITH THE TUTOR

Once you've defeated the Elite Four, the Move Tutor will appear near the entrance to the game center at Goldenrod City on Wednesdays and Saturdays. He will offer to teach one of your Pokémon Flamethrower, Thunderbolt or Ice Beam in exchange for 4,000 game coins.

CHOOSE YOUR TRAINER

A new player-controlled Pokémon Trainer makes her debut in Pokémon Crystal. In Pokémon Gold and Silver, the Trainer whom you guide through the game is a boy. In Crystal, you can choose between the boy Trainer and the girl Trainer.

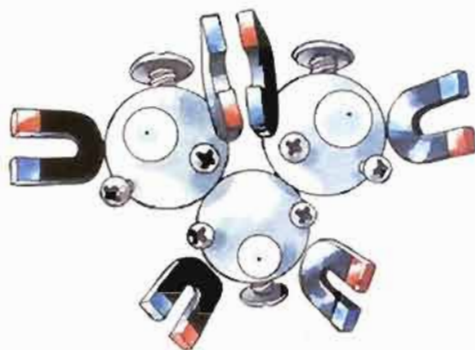

SAME POKÉMON, DIFFERENT MOVES

More than a dozen of the Pokémon that you can collect in Pokémon Crystal learn moves that they can't learn in Pokémon Gold or Silver. Suicune, for example, can learn two moves that it is unable to learn in other versions. See pages 12 and 13 for a complete list.

ODD EGG

The man in the Pokémon Daycare on Route 34 will give you the Odd Egg the first time you speak to him. It will hatch into a Smoochum, Elekid, Magby, Pichu, Cleffa or Igglybuff that knows the move Dizzy Punch.

New Abilities in Crystal

Fifteen Pokémon can learn new moves in Crystal, sometimes instead of the move they would have learned at the same level in Gold and Silver.

Pokémon Not in Crystal

As with Gold and Silver, there are a handful of Pokémon that you can't catch in Crystal. If you want to catch 'em all, you'll have to trade some Pokémon from other versions of the game. There are also two Pokémon that can't be caught in any version of the game. They must be given to you by Nintendo, which makes them very rare.

LEGENDS

Two of the rarest Pokémon, Mew and Celebi, are not catchable in any of the Pokémon games. The only way to acquire the creatures is to get them from Nintendo at special events or through contests.

Battle Strategies

You'll have to battle Pokémon before you'll be able to catch them. Learn how to put up a good fight by getting down the basics of battling.

HIT AND POWER POINTS

Your Pokémon's health is measured by its Hit Points, or HP. In battle, the damage your Pokémon takes will drain its HP. If its HP reaches zero, your Pokémon will faint and be out of commission until you treat it with a special item (like a Revive) or check it in at a Pokémon Center. Power Points, or PP, measure your Pokémon's abilities. The number of times you can use an attack depends on how many PP you have for that move. Every time you use an attack, you'll spend one PP. Replenish PP at a Pokémon Center or by using a Special item.

SPECIAL EFFECTS

Most attacks take their toll on the victim's HP only. Other attacks are a little trickier and affect the targeted Pokémon's composure or inflict it with damage that lasts for the entire battle or until the effect is reversed. Those types of attacks are good to open with since they can help you weaken your opponent early. Attacks like Absorb can help you soak up your rival's HP, while a poison attack can continue to harm your opponent while you spend subsequent turns unleashing other attacks on it.

If your Pokémon falls victim to an attack with long-lasting side effects, give it immediate attention before your Pokémon faints. Some attacks like poison ones will continue to hurt your Pokémon until you cure it with a special item or take it to a Pokémon Center.

LEARNING FROM EXPERIENCE

After every battle you send your Pokémon into, your Pokémon will gain Experience Points (even if you call it back before it gets a chance to fight) as long as it doesn't faint. As your Pokémon racks up Experience Points (EXP. Points), it will eventually mature to a new level. When Pokémon reach certain levels, they will automatically learn certain advanced moves. Enter all your Pokémon into as many battles as you can so they can develop new attacks and grow to new levels.

IN THE HEAT OF BATTLE

Pokémon battles go down in one of two ways. Some Pokémon don't have owners, so you may encounter them in the wild. Other Pokémon have been trained, and you'll battle their Trainers to win experience points, money or even a badge.

WILD POKÉMON

Walk through grassy places, caves and other areas to find wild Pokémon. The fighters will take turns attacking one another. You can't catch Pokémon that are owned by Trainers, but wild Pokémon are up for grabs. Catch one with a Poké Ball after weakening it or go ahead and defeat it if you want to earn even more experience points.

START

END

POKÉMON TRAINER

The routes are populated by Pokémon Trainers who are eager to compete with you. All Trainers, including yourself, can enter six Pokémon into a battle, so a matchup against a Trainer may last six rounds. After you've defeated one of the rival Trainer's Pokémon, you'll have a chance to call in another one of your Pokémon without losing a turn. If you defeat all of the Trainer's Pokémon, you'll win the battle along with some money and experience to boot!

START

WORST-CASE SCENARIOS

Battling isn't easy, so there's always a chance you'll find yourself struggling through a losing battle. If things are looking grim, swallow your pride and run. There's no penalty for leaving a battle with a wild Pokémon, so escape if you can. You can't escape a battle with a Trainer.

If you get wiped out and all of your Pokémon end up fainting, you will faint as well. You'll wake up in the last Pokémon Center you visited.

If the going gets tough, don't be afraid to run away. You can escape battles with wild Pokémon, so don't push it if you're close to being defeated.

END

TYPECASTING FOR COMBAT

In Red, Blue and Yellow, there were 15 types of Pokémon to catch. Gold, Silver and Crystal add Dark-types and Steel-types to the mix, bringing the total of Pokémon types to 17. Whatever type your Pokémon may be, it will sport some general characteristics that are directly related to its type. Water-types

have aquatic abilities and characteristics, and they have a natural advantage over Fire-type Pokémon, which boast heat-related characteristics.

Pokémon have strengths and weaknesses based on their type. The effectiveness of your attack will depend on the type of both your Pokémon and the Pokémon it's fighting.

ADDITIONAL TYPES DARK & STEEL

In addition to the 15 Pokémon types featured in the Red, Blue and Yellow Versions, Gold, Silver and Crystal introduce two new types of Pokémon, Dark-type and Steel-type.

Pokémon from the Red, Blue and Yellow Versions may have new characteristics. In Gold, Silver and Crystal, Magnezone is an Electric-and-Steel-type.

COMBAT CHART

The chart below shows how effective different types of attacks are against different types of Pokémon. Match up the type of attack you want to use with the type of Pokémon you want to use it against to get a good idea of the outcome of your battle. A plus sign (+) means that your attack

will have an advantage. For example, a Water-type attack will give you the upper hand against a Fire-type Pokémon. A minus sign (-) means your attack won't be effective, an equal sign (=) means the attack will have no effect, while an empty box indicates the attack will have its standard effect.

BALANCED ATTACKS

Your Pokédex rates your Pokémon in five categories: Attack, Defense, Speed, Special Attack and Special Defense. Each category measures a different characteristic crucial to battling (refer to the definitions below for specifics), so balance your attacks to cover all angles. Besides the addition of Dark- and Steel-type Pokémon,

Gold, Silver and Crystal also add a new twist by changing Poison-type assaults from Special attacks to physical attacks.

ATTACK Attack measures the power of physical attacks, which appear in black on the chart.

DEFENSE How well your Pokémon can withstand a physical attack depends on its Defense rating.

SPEED The Speed rating determines who attacks first. The Pokémon with the higher Speed rating gets the first move.

SPECIAL ATTACK Nonphysical attack power is measured by the Special attack rating. Special attacks appear in green on the chart.

SPECIAL DEFENSE Your Pokémon's ability to withstand Special Attacks is determined by its Special Defense rating.

ATTACK ADVANTAGE

Dual-type Pokémon (like Water-and-Flying-type, Gyarados) can have a double advantage, since they boast two sets of characteristics. But they can also be at a double disadvantage if you pit the right Pokémon against them. In the example, Electric-type Pikachu boosts its Thunderbolt attack by 1.5 times since both the attack and the Pokémon are of the same type. The attack strength is then multiplied by two since Electric-types have an advantage over Water-types. But that's not all—Electric-types also dominate over Flying-types, so the total damage is multiplied by two yet again!

THUNDERBOLT ATTACK	x1.5
ELECTRIC VS. WATER	x2
ELECTRIC VS. FLYING	x2
TOTAL DAMAGE	x6

TEAM TACTICS

To guarantee that you have the perfect Pokémon for every battle, you should assemble a well-rounded team of all types. It's also a good idea to have at least one Pokémon with a low experience level. That way, you'll have a Pokémon you can use for battling wild Pokémon. If you battle them using one of your experienced team members instead, you might defeat the wild Pokémon before you have a chance to capture them.

Pokémon go into battle one at a time. The Pokémon at the top of your list will be the first one to enter the fight.

You can switch Pokémon during battle. Call in a substitute when your current Pokémon is close to fainting.

Put an inexperienced Pokémon at the top of your list to build its level. As long as it enters a battle (you can call it back before it fights), it will gain experience.

BAD STATUS

Sometimes it doesn't matter how good of a match your team is for the particular type of Pokémon you're facing. Attacks that boost your attributes or enhance evasiveness can help even the playing field if your type isn't quite the perfect foil for the type of foe you're facing.

Attacks with longer-term effects, such as Thunder Wave or Poisonpowder, can also help you get an advantage if you happen to be matched up against a Pokémon type that has the upper hand.

If you're hit with a lasting attack, such as something that puts your Pokémon to sleep or burns it, your Pokémon will be under its spell or take damage until you cure it or the effects wear off.

If your Pokémon is a victim of a lasting attack, pull it out of battle before it faints or heal it with an item. Sleep and Confusion are two effects that wear off—most others last until your Pokémon is healed.

SAMPLE TEAM

You can gather up to six Pokémon for your team. Since every type of Pokémon has a unique natural advantage over other types, you should assemble six diverse Pokémon. Avoid putting together a team made up of one or few types. Instead, assemble a motley crew like the sample team so you can cover many bases.

Gotta Get 'Em All

There's nothing better than a full Pokédex, but to enjoy that you'll have to catch and collect the wily creatures. Some Pokémon live in the wild, and you can capture them using Poké Balls.

WILD THINGS

Most Pokémon live in the wild—in tall grass, trees, caves or water. If you know where to look, you can catch them using cunning and Poké Balls. The process begins when you enter one of the areas where Pokémon live and hide. Eventually, you'll flush one out and the battle will begin. If you see a Poké Ball symbol near the HP Meter of a wild Pokémon, it means that you already own one of those Pokémon.

FIELD

The most common area to find Pokémon is in tall grass. If you walk around in the grass for a while, you will eventually scare up a wild Pokémon. Each patch of grass is home to just a few types of Pokémon.

CAVE

Caves are home to many Pokémon, such as Zubat and Geodude. If a cave is dark when you enter, use Flash to illuminate the path. You'll encounter the subterranean inhabitants as you walk around the cave.

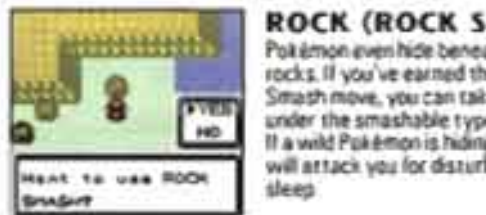

SEA

Once you have the Surf move and the Fog Badge from the Ecrutek City Gym, you can surf over bodies of water and find Water-type Pokémon of many varieties. Just surf back and forth until a Pokémon shows up.

FISHING

You can catch Water-type Pokémon without getting your feet wet if you use one of the fishing poles—the Old Rod, Good Rod or Super Rod. Cast your line into the water from any shore and wait for a bite.

ROCK (ROCK SMASH)

Pokémon even hide beneath some rocks. If you've earned the Rock Smash move, you can take a look under the smashable types of rocks. If a wild Pokémon is hiding there, it will attack you for disturbing its sleep.

Balls. Other Pokémon must be evolved, traded or hatched. The following pages describe how you can build the ultimate collection using all of the methods.

TREE (HEADBUTT)

After earning the Headbutt move, you'll be able to ram trees to shake loose any Pokémon hiding there. The Pokémon will fall to the ground, where they'll attack. The chart below shows the different Pokémon that you are likely to find when you Headbutt trees in wooded or mountain areas.

BRING HOME THE POKÉMON

Catching Pokémon isn't as easy as it may seem. First, you must encounter a wild Pokémon, and you must have a Poké Ball to throw at it. You don't want to face the wild Pokémon with an overly powerful Pokémon from your team because your Pokémon could easily overwhelm the less powerful, wild Pokémon with one attack. You need to be patient, and you might have to use several Poké Balls to accomplish the task. Specialized Poké Balls will help you catch some of the tougher Pokémon.

1. ATTACK

Your goal is to reduce the wild Pokémon's HP Meter as close to zero as possible without having it faint. Use your weaker moves and attack with Pokémon that are not much more powerful than the wild Pokémon that you're fighting.

2. INCAPACITATE

Use attacks that induce sleep or paralysis in the wild Pokémon so you can whittle away at its HP Meter without taking damage. Once a wild Pokémon is asleep or frozen, you can attack with a weak Pokémon, reducing your opponent's HP by small margins until it's just about ready to faint.

3. THROW A POKÉ BALL

When you've reduced the wild Pokémon's HP Meter as close to zero as possible, it's time to try to capture it with a Poké Ball. Choose a ball from the Poké Ball pocket of your pack. It will be thrown automatically, and in a few seconds you'll see if you've captured the Pokémon or if it managed to escape the attempt.

4. STORE IN BILL'S PC

If all goes well, you'll manage to capture the new Pokémon. But if you have six Pokémon on your team already, the new addition will be sent automatically to Bill's PC for storage. You can withdraw the new Pokémon when you access Bill's PC at any Pokémon Center.

CRITICAL CONDITIONS

Incapacitating a Pokémon can make it easier to capture. Another trick is to use attacks that slowly reduce HP, such as poison and burn. Their effects are continuous, so you'll have to throw your Poké Ball before the attack makes the Pokémon faint.

POISON

FREEZE

PARALYZE

BURN

SLEEP

Putting a Pokémon to sleep gives you a chance to reduce its HP slowly. When you see red or yellow on the HP Meter, it's time to try throwing a Poké Ball.

HYPNOSIS, SPORE: Put those pesky wild Pokémon to sleep using attacks such as Hypnosis and Spore. If the attack is successful, the opponent won't fight back, at least for awhile. That is the time to use your weak attacks to chip away at the Pokémon's HP. The idea is to keep your opponent in the match, if just barely.

MEAN LOOK, SPIDER WEB: Two special attacks—Mean Look and Spider Web—keep your opponent from running away. Although most commonly used in Trainer battles, the attacks will keep certain wild Pokémon from escaping, giving you a chance to capture them and add them to your growing collection. Always use the attacks at the beginning of the battle.

FALSE SWIPE: False Swipe is probably the single most useful attack that you can use if you're trying to capture wild Pokémon. If False Swipe is successful, it will reduce your opponent's HP to one with a single hit. At that point, the wild Pokémon is as susceptible to being captured as it will ever be. After using False Swipe, throw your Poké Ball and capture the Pokémon.

LUCKY NUMBER

The radio station in Goldenrod City broadcasts the Lucky Number daily. If the Trainer Number for your Pokémon matches some or all of the numbers on the radio, you'll win prizes. If you match every number, you'll win a Master Ball. Return to see the Station Manager to claim your prize. The Pokémon with the matching number must be included in your current party of six Pokémon if you are to receive the prize.

POKÉDEX LOCATION FINDER

Your Pokédex is full of useful information about the Pokémon you catch, but it also contains data on Pokémon that you've met in Trainer battles. If you encounter a Pokémon in the wild or a Trainer uses a Pokémon during a battle, you'll be able to see where it lives in the wild on your Pokédex Location Finder Map—even if you don't own that Pokémon. As for Pokémon that you've caught, you'll see all the nest locations on the Pokédex, plus height and weight and a brief description of its habits.

ALL THE POKÉ BALLS

Poké Balls are used to capture and store Pokémon. In addition to the original types of Poké Balls, a huge assortment of specialized Poké Balls shows up in Pokémon Gold, Silver and Crystal Versions. The Poké Ball maker in Azalea Town constructs them from different kinds of Apricorns.

OAK'S POKÉMON TALK

Professor Oak's radio show gives Trainers hints about where they can find different varieties of Pokémon. Tune in from time to time with your Pokédex radio and listen to what the professor has to say about locations where you might want to look for wild Pokémon.

SOOTHING THE SAVAGE POKÉMON

The Pokédex radio has another virtue beyond getting information about Pokémon locations. The music channels can either attract or repel certain types of Pokémon. If you play the radio in a wilderness area, it may draw Pokémon out of the grass or drive them away from you. You'll have to experiment with different types of music in different locations to see its effect on the many varieties of Pokémon.

REPELLING POKÉMON

After you've caught a certain variety of Pokémon, you'll probably not want to battle it over and over. You can use the Repel item to keep wild Pokémon at bay for awhile. Use Repel when traveling through areas that you've visited previously, particularly if the wild Pokémon have low levels. You won't gain much experience by fighting them, and the time wasted could be spent more productively in an area with higher-level Pokémon.

TRAINERS ON THE PHONE

During your adventure, you'll meet special Trainers who give you their phone numbers if you defeat them in battle. They'll ask if you want to share phone numbers. If you do share your number with a Trainer, he or she will call you periodically and give you hints about finding rare Pokémon, and after the call,

they'll be much easier to find in the area. They'll also give you lots of information about common Pokémon, so many calls aren't very productive.

Building Levels

EXPERIENCE WANTED

To develop your Pokémon, you must gain Experience Points in battle. A Pokémon's level determines the attacks and moves it can learn. It also determines if and when your Pokémon evolves. Even though you have to win battles to earn Experience Points, you don't have to win with each Pokémon to acquire those points. The following strategies will help you get the most experience for your entire team, no matter which Pokémon you use.

LEAD AND LEAVE

One of the best strategies for building levels quickly is to lead with a low-level Pokémon then switch it out for a stronger Pokémon before the battle begins. If the opponent is at a much higher level than your lead Pokémon, it will give you a lot of Experience Points even though the low-level Pokémon doesn't fight. Both of your Pokémon will share the Experience Points evenly.

In the example shown, the Level-27 Jynx leads off and earns lots of experience—even though the battle is won by its more powerful teammate, Ampharos.

EXPERIENCE SHARE

The Experience Share item presents an even better way to build levels quickly. A Pokémon that holds Experience Share will gain a higher percentage of the experience than its teammates that don't have the item. The chart demonstrates how that works in a battle where 60 Experience Points are won. Normally, teammates share experience evenly. But a Pokémon with Experience Share can earn 50% of the points even if it never enters the battle.

BATTLE EXAMPLE 2:

EXPERIENCE SHARE USED (NON-FIGHTING)

60 EXPERIENCE POINTS	POKÉMON 1 Fighting	10	POKÉMON 2 Fighting	10	POKÉMON 3 Fighting	10
	POKÉMON 4 Non-fighting with Exp. Share	30	POKÉMON 5 Non-fighting	0	POKÉMON 6 Non-fighting	0

- A non-fighting Pokémon with Experience Share gets half the points ($60 \div 2 = 30$).
- The remainder of the points are divided evenly among the fighting Pokémon ($30 \div 3 = 10$).
- Non-fighting Pokémon without Experience Share get zero.

BATTLE EXAMPLE 1:

EXPERIENCE SHARE NOT USED

60 EXPERIENCE POINTS	POKÉMON 1 Fighting	20	POKÉMON 2 Fighting	20	POKÉMON 3 Fighting	20
	POKÉMON 4 Non-fighting	0	POKÉMON 5 Non-fighting	0	POKÉMON 6 Non-fighting	0

- Points are divided evenly among fighting Pokémon ($60 \div 3 = 20$).
- Non-fighting Pokémon get zero.

BATTLE EXAMPLE 3:

EXPERIENCE SHARE USED (FIGHTING)

60 EXPERIENCE POINTS	POKÉMON 1 Fighting with Exp. Share	40	POKÉMON 2 Fighting	10	POKÉMON 3 Fighting	10
	POKÉMON 4 Non-fighting	0	POKÉMON 5 Non-fighting	0	POKÉMON 6 Non-fighting	0

- A fighting Pokémon with Experience Share gets half of the points (30) plus one third of the remaining points (10) for a total of 40 points.
- The remaining points are divided evenly between the two other fighting Pokémon ($20 \div 2 = 10$).
- Non-fighting Pokémon get zero.

STOP THE EVOLUTION!

When a Pokémon reaches a particular level, it may begin to evolve. If you don't want it to evolve into the next form, push and hold the B Button until a message appears saying that the Pokémon has stopped evolving.

POWER TO THE POKÉMON

Trainers can use items to strengthen their Pokémon in many ways. Some items will help Pokémon evolve faster, while others may develop the Pokémon in one category such as Speed or Attack. For a full list of items and their effects, turn to the Item List on page 150. In addition to a list of effects, you'll see where you can procure the powerful items.

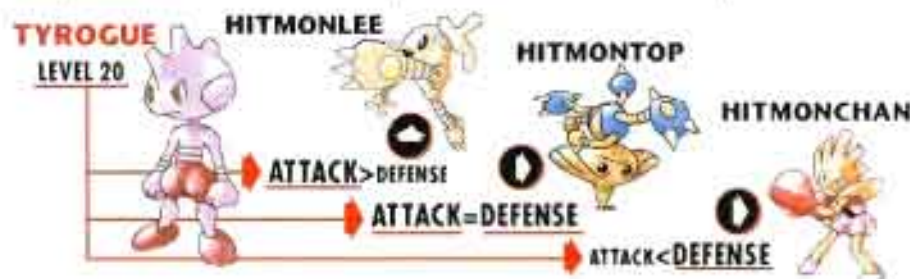

FRATERNAL TWINS

Look carefully at the category ratings for the two Hoothoot. Notice the differences in the ratings for Defense, Special Attack, Special Defense and Speed. Even though each Hoothoot is at Level 13, it has unique strengths. The differences may reflect the use of special items. In this case, the Trainer gave one Hoothoot an Iron to increase its Defense by one point. Pokémon stats vary from creature to creature, however—even among Pokémon of the same type and level.

<p>LEVEL 13</p> <p>HOOTHOOT</p> <p>HOOTHOOT</p> <p>HP 100</p> <p>DEFENSE 10</p> <p>SPECIAL ATTACK 10</p> <p>SPECIAL DEFENSE 10</p> <p>SPEED 10</p>	<p>LEVEL 13</p> <p>HOOTHOOT</p> <p>HOOTHOOT</p> <p>HP 100</p> <p>DEFENSE 11</p> <p>SPECIAL ATTACK 10</p> <p>SPECIAL DEFENSE 10</p> <p>SPEED 10</p>

LEVEL-UP EVOLUTION: SPECIAL

Tyrogue, a pre-evolved form of Hitmonlee and Hitmonchan, will evolve into either of those two forms, or Hitmontop, depending on its stats when it reaches Level 20. If Tyrogue's attack rating is higher, Tyrogue will evolve into Hitmonlee at Level 20. If its defense is higher, it will evolve into Hitmonchan, and if its attack and defense ratings are equal, it will evolve into Hitmontop. Use Iron or Protein to choose your evolution.

RED, BLUE AND YELLOW VERSIONS

For veteran Trainers, the evolutionary tree of Tyrogue will seem quite odd. In the original versions of the game, Hitmonlee and Hitmonchan were acquired at the special Karate Gym in Saffron City.

Players were given a choice between the two Fighting-type Pokémon if they defeated the Karate Master and his fellow Trainers. Hitmonlee used its feet while Hitmonchan used only its hands when fighting a Pokémon battle.

Trade Transformations

TRAVEL BROADENS THE POKÉMON

Certain Pokémon will evolve into their higher forms when they are traded to another Gold, Silver or Crystal Game Pak. If you have a Kadabra, Machoke, Graveler or Haunter, you can transfer it to someone else then receive an evolved Pokémon when it's returned. Trust is a beautiful thing.

KADABRA	⓪	ALAKAZAM
GRAVELER	⓪	GOLEM
HAUNTER	⓪	GENGAR
MACHOKE	⓪	MACHAMP

EVOLUTIONARY BAGGAGE

Some Pokémon come into being through a natural evolutionary process; others require a special item. Once you find the special items shown below, have the indicated Pokémon hold them when you trade them to another Gold, Silver or Crystal Game Pak. The transfer will produce new evolutionary forms.

POLIWHIRL	⓪	KING'S ROCK	POLITOED

TROUBLING TRANSFERS

Remember: You can transfer only Pokémon that appeared previously in Red, Blue and Yellow from Gold, Silver and Crystal to Red, Blue and Yellow. New Pokémon or those with new items or abilities cannot be traded from Gold, Silver and Crystal to Red, Blue, and Yellow. That group includes old Pokémon that have evolved into new Pokémon.

Stepping Stones of Evolution

MINERAL SUPPLEMENTS

As you know from previous versions of the game, you can use special stones to induce evolution in specific Pokémon. You won't need to conduct a trade to make them evolve—just have the indicated Pokémon use the stones to alter their evolutionary development. Gloom and Eevee can transform into more than one form, depending on the stone they use to evolve.

SUN STONE

There's something new under the sun in the world of stone evolution. Gold and Silver introduced the Sun Stone, which you can use to transform Sunkern into Sunflora and Gloom into Bellossom—no greenhouse necessary.

USING DIFFERENT STONES

Friendly Evolution

YOU'RE MY BEST FRIEND!

Some Pokémon need more than just experience to evolve—they need to be attached to you, too. If you treat those Pokémon very well, they will grow to trust you and will evolve far more quickly than if you mistreat them. While many Pokémon will evolve regardless of how well you treat them, you should try to be a good Trainer to all of your Pokémon. Many events in the game are based on how attached your lead Pokémon is to you.

DAY OR NIGHT

Eevee's other evolutions are created with Stones, but Espeon and Umbreon are not. Eevee evolves into either Espeon or Umbreon when it's extremely attached to you, and its evolution starts at a certain time of day. To get Espeon, allow Eevee to evolve in the morning or day. For Umbreon, allow Eevee to evolve at night.

DO'S AND DON'T'S

There are quite a few things that will help your relationship with your Pokémon, and a couple that will hurt your relationship with your Pokémon. You should try to forge strong relationships with all of your Pokémon—especially the party you travel with most often.

DO:

Have your Pokémon groomed in Pallet Town by Blue's Sister.

Get your Pokémon's hair cut by one of the Haircut Brothers.

Travel with a Pokémon and keep it in your party as often as possible.

Use many items on a Pokémon and let it hold an item, too.

DON'T:

Let your Pokémon faint in battle or repeatedly allow it to get very weak.

Make the Pokémon take bitter medicine, or trade it away to another Trainer.

In-Game Events

FOUR WAYS TO ACQUIRE POKÉMON

Aside from catching wild Pokémon that attack you, there are four other ways to get your hands on Pokémon. Some of the rarest Pokémon are creatures you can't catch in the wild, so study this list for information on how to get them.

1 THE GIFT POKÉMON

GIFT	LOCATION
CHIKORITA CYNDAQUIL TOTODILE	NEW BARK TOWN Professor Elm will give you a Pokémon for helping him with an errand. You get to choose whether it's a Chikorita, Cyndaquil or Totodile, and you won't get the other two from Elm.
SHUCKLE	CIANWOOD CITY The Shuckle you keep safe is yours if it becomes attached to you.
EEVEE	GOLDENROD CITY After you meet up with Bill, return to his house where you will get an Eevee.
TYROGUE	MT. MORTAR If you defeat Blackbelt Kiyo in Mt. Mortar, he will give you a Tyrogue.

Pokémon Eggs

Pokémon Crystal, Gold and Silver allow you to raise your own Pokémon at the Breeding Center just south of Goldenrod City on Route 34. With a little patience, you can raise many Pokémon.

POKÉMON DAYCARE

The man and woman who run the Daycare can take one Pokémon each to raise for you. An unexpected bonus sometimes happens when you board two Pokémon of opposite genders, or any Pokémon with a Ditto. If the Pokémon like each other, you may return to the Daycare a while later to find that a Pokémon Egg has appeared. No one is quite sure how it happens, but when it does, you simply have to carry the Egg in your party for a while to hatch it into a Pokémon—maybe even a new pre-evolution will appear!

CHECK THEIR FRIENDSHIP

Your Pokémon may or may not like each other. Walk outside into the Pokémon Daycare's yard and use the A Button to check on your Pokémon and see what their interest level is. If both Pokémon show an interest in each other, you will end up with a Pokémon Egg eventually. If they show no interest in each other, there will not be an Egg for you to hatch.

CHECK THE MESSAGE

The message you get will let you know if a Pokémon Egg is on the way.

EGGS

- It appears to care for the other Pokémon
- It shows interest in the other Pokémon
- It's friendly with the other Pokémon

NO EGGS

- It's brimming with energy
- It has no interest in the other Pokémon

NO EGGS

Some Pokémon will never produce Eggs for you to hatch. Some are the pre-evolution Pokémon, while others are legendary Pokémon that are one-of-a-kind in each Game Pak. Whatever the case, you won't find Eggs from those Pokémon.

You won't be able to produce Eggs with some Pokémon. You can still leave them with the Pokémon Daycare if you want to raise their levels easily, however.

SAME POKÉMON

DIFFERENT POKÉMON

MALE OR FEMALE

Some Pokémon have only one gender. Kangaskhan, for example, are always female, while Tauros are always male. Leave those Pokémon with Pokémon of the opposite gender. If they like each other, you will get an Egg containing a Pokémon like the female of the pair.

DITTO

Ditto has no gender, so it may produce Eggs with male, female or neuter Pokémon. Pokémon will usually show interest in Ditto. The Egg produced will always hatch the lowest evolution of a particular Pokémon. For example, if you leave a Magnetron and a Ditto at the Daycare, the resulting Egg will hatch into a Magnemite, not a Magnetron. Pokémon that are exclusively male will produce a younger version of themselves with Ditto only.

HATCHING After you pick up the Pokémon Egg from the Pokémon Daycare, you must carry it around in your party with active, healthy Pokémon, or it won't hatch. Some Pokémon take longer than others to produce an Egg, and some Eggs take longer than others to hatch.

Pokémon Game Index

If you find yourself missing an elusive Pokémon or two, use the Pokémon Index to discover where they can be found. Since many Pokémon are found only in certain games, you may need to relive some older adventures or trade with a friend to fill up your entire Pokédex.

Walk-Through

Using the Walk-Through

The Walk-through is your step-by-step guide to Pokémon Crystal, Gold and Silver. Most of the information in the Walk-through applies to all three games, but some of it is just for Pokémon Crystal. Read the key below to understand all the different types of information provided in the Walk-through.

WORLD MAP

The World Map displays where the cities, towns, routes, islands and caves are located in relation to the entire area of either Johto or Kanto.

Later: Any events that occur in a particular area some time after your first visit to that area are highlighted with the "Later" label.

Azalea Town
Azalea Town is located in the north-central part of Johto. It is a small town with a few buildings and a large field. The town is surrounded by mountains and is a good place to start your journey.

Slowpoke Well
Slowpoke Well is a small pond located in the north-central part of Johto. It is a good place to catch Slowpoke and Slowbro.

Rix Forest
Rix Forest is a large forest located in the north-central part of Johto. It is a good place to catch various Pokémon and to find hidden items.

Route 34
Route 34 is a long route located in the north-central part of Johto. It is a good place to catch various Pokémon and to find hidden items.

POKÉMON MART
The Pokémon Mart is a store where you can buy various items and Pokémon. It is located in Azalea Town.

POKÉMON GYM
The Pokémon Gym is a place where you can battle the Gym Leader. It is located in Azalea Town.

POKÉMON CENTER
The Pokémon Center is a place where you can heal your Pokémon and get information. It is located in Azalea Town.

RIVAL

Every Rival battle is set off in its own box. Each box shows the Pokémon your Rival will use in battle.

GYM LEADER

The Gym Leader boxes are always labeled for quick and easy reference and contain info on which Pokémon to use in battle and other tips.

CRYSTAL ONLY

Any events that happen only in Crystal appear in blue type.

Doors that link rooms or that should be opened in order are marked with letters starting with "A."

RIVAL

I

The location of your Rival in the area is marked with an exclamation point on the map.

ITEMS

The yellow labels point out the locations of items in Gold, Silver and Crystal.

ITEMS

The red labels point out the locations of items in Gold and Silver only.

ITEMS

The blue labels point out the locations of items in Crystal only.

Some items and people may appear in slightly different locations from the ones shown on the maps in this book.

New Bark Town

Your hometown of New Bark Town may be small, but it's packed with places, people and items that are extremely important to you. Your adventure begins with an errand that your neighbor, Professor Elm, asks you to run for him. He gives you a wonderful gift for helping him!

1 ON THE HOME FRONT

POKÉ GEAR

The very first item you will receive is your Pokégear, which your mother says is back from the repair shop. The Pokégear is a multifunctional device that initially acts as a phone. With it, you can call important people like your mother or your neighbor, Professor Elm. Your mother will explain how to use the device, and she'll also help you set the day of the week. After she's done helping you, your mother will send you to Professor Elm's lab.

Before your mom sends you over to Professor Elm's lab, she will give you the Pokégear and her phone number, so you can call her any time you'd like.

Later: While you're on your journey, your Mom will help you save your money if you want her to. You can't lose money your mom keeps for you, and you can ask her for the saved money when you run low. Your mom loves to shop, and she will call you when she's purchased something new. Sometimes she buys helpful items, like Potion or Repel, and sometimes she just buys decorations for your room.

Your mom likes buying fun Pokémon stuff for your room, like the Charmander and Snorlax dolls, and you can use them to decorate. When you're in your room, choose Decoration from your PC's menu to arrange the objects.

2 PROFESSOR ELM'S LAB

POTION

POKÉ BALL x5

MASTER BALL

EVERSTONE

S.S. TICKET

Professor Elm asks you to visit Mr. Pokémon on Route 30 to pick up an interesting item. He offers you one of his Pokémon—Chikorita, Cyndaquil or Torodile—to keep you company on your journey. The professor will call you several times during your adventure, and each time he will have one of the gifts listed above for you. The lab assistants will give you your first five Poké Balls after you return from the errand. After you win your eighth badge in Johto, Professor Elm will call you back to the lab and give you the Master Ball. Once you have defeated the Elite Four, Professor Elm will give you the S.S. Ticket so you can continue on to Kanto.

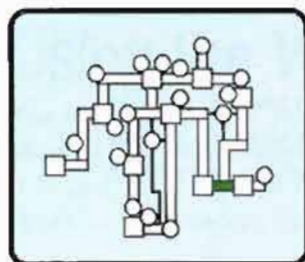

Professor Elm will let you choose one of his three rare Pokémon to be your companion on the way to Mr. Pokémon's house. Choose wisely.

You may notice a red-haired person peering into the windows of Professor Elm's lab. If you start a conversation, you will annoy him and he will literally kick you out of his way.

Later: Right after you complete the errand, Professor Elm will call and ask you to rush back to the lab. He's too upset to tell you what happened, but you'll soon find out. On your way back to the lab, the mean, red-haired person will challenge you to a battle, and the Pokémon he's

using will certainly seem familiar. It turns out that he stole the Pokémon from Professor Elm. That's no way to behave!

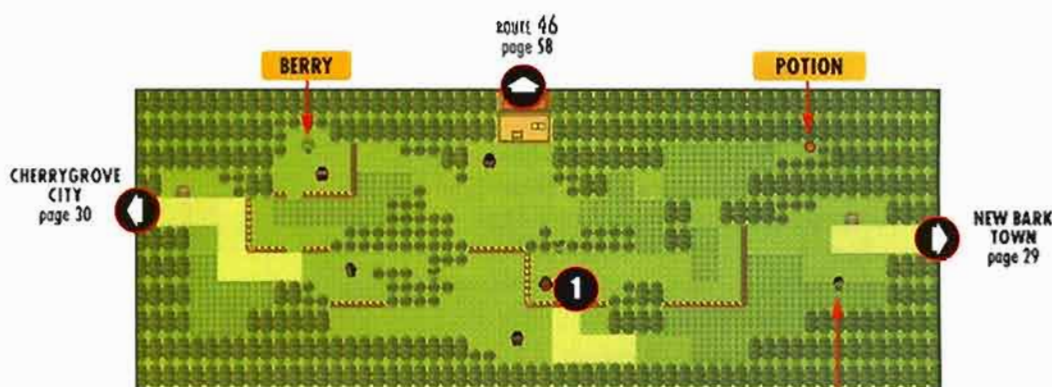

Route 29

Route 29 is a long and winding road that will eventually drop you off in Cherrygrove City. You have to walk through tall grass to make it to your next destination, so be ready to battle with some Pokémon! Unfortunately, you can't catch them without Poké Balls.

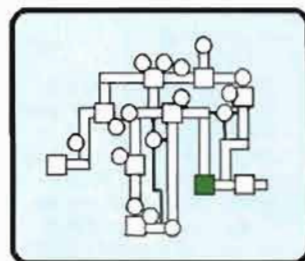

1 THE DAY SIBLINGS

PINK BOW

There are seven siblings who are located at various points in Johto. After you defeat Violet City's Gym leader, they will appear. Tuscany, the Tuesday sibling, appears on Route 29 every Tuesday. Remember to come back to Route 29 any Tuesday to meet her. Tuscany of Tuesday will give you the Pink Bow, an item that boosts the power of Normal-type moves, when you find her.

Later: After you complete Elm's errand, this person will explain how to use a Poké Ball.

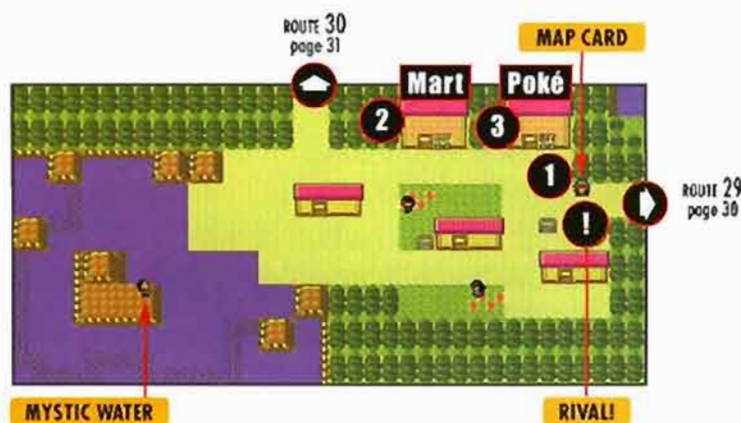

Cherrygrove City

Cherrygrove City has a Pokémon Mart and Pokémon Center, but it doesn't have a Gym. You will have to brawl in the city, however, so try to battle as many wild Pokémon as possible to build up your starting Pokémon and make it fighting fit.

1 TAKE THE TOUR

An old man will offer to show you around Cherrygrove City. It may seem like a small town, but take him up on his offer anyway, especially if you haven't played a Pokémon game before. After the nice older gentleman is finished showing you the sights, he will reward you with a Map Card for your Pokégear, so you'll have a map of Johto with you at all times. To use the map, hit the Start Button, select Pokégear from the menu then choose the Map icon.

Later: Once your Pokémon can learn Surf and use it outside of battles, head over to the island and talk to the fisherman. He will give you Mystic Water, which powers up Water moves.

2 POKÉMON MART

The Pokémon Mart is a good place to stock up on items that you need to become a great Pokémon Trainer. If you visit the Pokémon Mart before you finish your errand for Professor Elm, you will not be able to buy Poké Balls. You can purchase other goods, however, if you wish to spend your money.

POKÉMON MART

POTION	300
ANTIDOTE	100
PARLYZ HEAL	200
AWAKENING	250
POKé BALL	200

Later: After you've successfully completed Professor Elm's errand, you can go back to the Pokémon Mart and purchase as many Poké Balls as you can afford. You must use the Poké Balls to catch Pokémon in the wild to bulk up your traveling party.

3 POKÉMON CENTER

If you have never been to a Pokémon Center before, you're in for a treat. Pokémon Centers are located in nearly every town, and they are a great resource for Pokémon Trainers of all skill levels. You can ask the nurse at the desk to heal your Pokémon back to perfect health and you can use the PC there to access your PC, where you store your items, and Bill's PC, where you store your Pokémon.

Later: The second floor of every Pokémon Center has several areas that you won't be able to use until you've finished your errand for Professor Elm. The first area is the Cable (Pokémon) Club Trade Center, where you can use the Game Link Cable to trade Pokémon with a friend who has Pokémon Gold, Silver or Crystal. The other is the Cable Club Battle Center, where you can battle with a friend who has Pokémon Gold, Silver or Crystal.

The Pokémon Center is the perfect place to get your Pokémon and items in order. You can also heal your Pokémon when they are tired and hurt from battle.

RIVAL! BATTLE 1

Meet Your Rival

On your way back to Professor Elm's lab, you will run into your Rival in Cherrygrove City. His Pokémon will be whichever of the starting Pokémon your starting Pokémon is weak against, but it will be only at Level 5, so as long as you've beaten a bunch of wild Pokémon, you will win.

CHIKORITA		
LEVEL 5	CYNDAQUIL	FIRE
CYNDAQUIL		
LEVEL 5	TOTODILE	WATER
TOTODILE		
LEVEL 5	CHIKORITA	GRASS

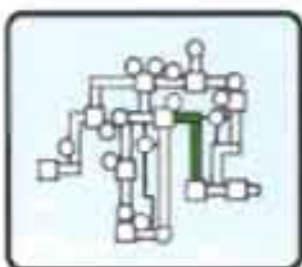

Route 30 & Route 31

Routes 30 and 31 are uncomplicated roads, but you'll have to wander off the path to make it to Mr. Pokémon's house to finish Professor Elm's errand. You'll wander through tall grass again, which will help your Pokémon become strong—if you win.

TM 50-NIGHTMARE

Later: A guard in the guard house that separates Goldenrod City and Route 35 will ask you to deliver a message to the man by the water. If you give the mail to the man, he will give you TM 50, Nightmare.

1 BERRY GOOD!

BERRY

A man inside the house will tell you about the healing properties of Berries. Search the tree outside the house with the A Button to find another Berry. Your Pokémon can hold Berries to heal themselves!

2 MR. POKÉMON

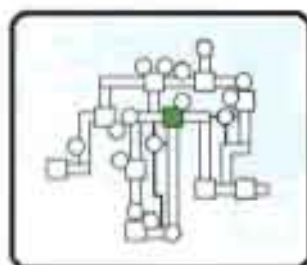

MYSTERY EGG

POKÉDEX

EXP. SHARE

Mr. Pokémon will give you the Mystery Egg to take to Professor Elm. Mr. Pokémon's friend, Professor Oak, will give you a Pokédex. As you're leaving, Professor Elm will call you and ask that you return to the lab on the double. Later, trade the Red Scale from the Lake of Rage to Mr. Pokémon for Exp. Share.

Violet City

Violet City is the first city you'll visit that has a Gym in it. You don't want to rely on just one Pokémon for a Gym Leader battle, so you'd better catch and raise some wild Pokémon to fill out your party. You won't be able to reach the items above the city until you have Surf.

1 EARL'S POKÉMON ACADEMY

If you talk to the man next to the Gym, he will lead you to his Pokémon Academy, where he teaches his students some basic Pokémon battling and raising lessons. You can also learn a lot from the writing on the blackboard and the other students. Study hard!

2 SPROUT TOWER

The Sprout Tower is a good place to train your Pokémon and yourself. If your Pokémon are over Level 10, the battles against the Grass-types won't be very difficult. If your Pokémon aren't at Level 10, it might be a little harder—unless you started with Cyndaquil.

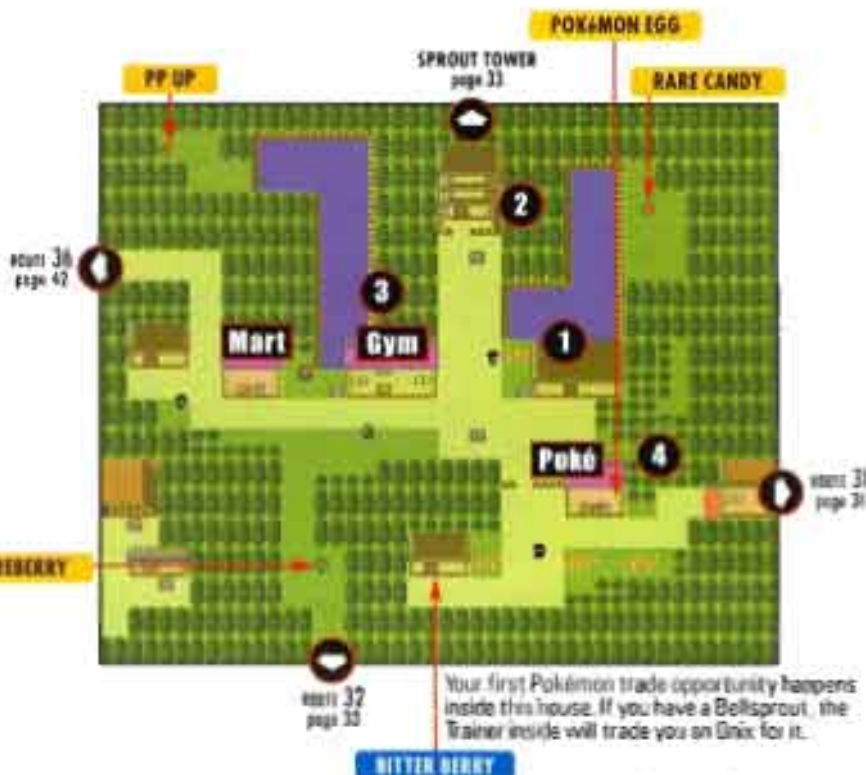

3 VIOLET CITY GYM

It's your first Gym battle, so be careful. There are two Gym Members and one Gym Leader for you to fight, but you don't have to fight them without a break. If your Pokémon get too weak, take them to the Pokémon Center and heal them between battles, so they're able to continue.

4 POKÉMON EGG

After you beat the Violet City Gym Leader, you will get a call from Professor Elm asking you to meet his assistant in the Violet City Pokémon Center. The assistant will give you the Pokémon Egg you delivered to Elm, because it needs to be near active Pokémon to hatch. Put it in your party and keep it safe.

The battle with Falkner won't be a problem if you pick up an Onix in a trade. Falkner uses Normal-and-Flying-types Pidgey and Pidgeotto, which don't do well against Rock-types. They're especially vulnerable to Electric-types, but you probably won't have one this early in the game.

PRIZES: ZEPHYR BADGE/TM 31 (MUD-SLAP)

When you beat Falkner, he will award you the Zephyr Badge and TM 31, Mud-Slap. You can use a TM only once.

RECOMMENDED POKÉMON TYPES: ROCK

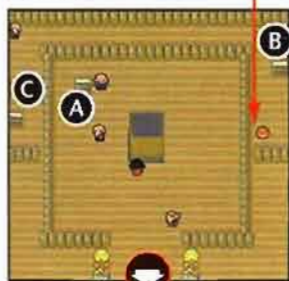

Sprout Tower

The magical Sprout Tower is rumored to have a giant Bellsprout stalk as its center column. Many monks devoted to Grass-types train in Sprout Tower, but you should be able to handle them. You may want to use the Escape Rope to leave the tower, or you can climb down.

First Floor

Follow the marked staircases to make your way up Sprout Tower. You can pick up Parlyz Heal on the right side of the first floor.

Second Floor

X DEFEND

X ACCURACY

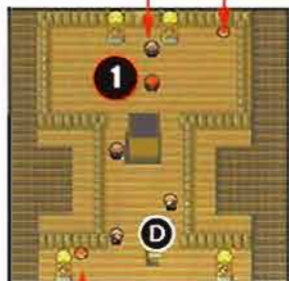

The monks will fight with mainly Grass-types, and they seem particularly fond of Bellsprout. Your Rock-, Water-, Grass- and Ground-types won't fare well against the monks' Pokémon, unless you've trained them to Level 10 or above. Flying- or Fire-types will have no trouble at all. In Gold and Silver, you can find X Defend on the second floor. If you're playing Crystal, you'll find X Accuracy instead.

Third Floor

HM 05/FLASH

POTION

1 THE ELDER

The third floor has several monks and their leader, the Elder. You will see your Rival briefly, but he leaves quickly. If you beat the Elder, he will give you HM 05, Flash, which will help you see inside dark caves. You need the Zephyr Badge to use Flash outside of battle.

Your Rival thinks the Elder is weak. He's not much of a challenge if you have a Flying- or Fire-type along with you. Don't use a Rock-type unless you want to lose.

Route 32

Many of the Trainers you'll meet up with on Route 32 will be using Water-type Pokémon, and the caves have lots of wild Rock-types, so it's best to move your Grass-type Pokémon to the top of your party. That way, you'll always have the advantage when a battle begins.

1 FRIEDA OF FRIDAY

POISON BARB

Every Friday, one of the Day siblings, Frieda of Friday, will be standing in the forest, waiting to talk to you. She will present you with Poison Barb, an item that makes a Pokémon's Poison-type attacks stronger.

2 GONE FISHING

OLD ROD

Talk to the man closest to the healing machine inside the Pokémon Center. He will offer you one of his fishing poles, the Old Rod. With the Old Rod, you can walk up to water and start fishing for Water-type Pokémon.

Ruins of Alph

The Ruins of Alph house an interesting archaeological site that is over 1,500 years old. It's being studied by scientists trying to unlock its secrets. What could the mysterious writing that covers the walls mean? Until you can use Surf and Strength, you won't be able to explore the entire area to find out.

1 THE FIRST PUZZLE ROOM

The room has a puzzle in its center. Read the hint on the right side of the stone tiles to help you slide the pieces into position. Start with the corners, then the border, then finish with the inner pieces. When you solve the puzzle, a hole will open in the floor. Once you've dropped down the hole, the Unown Pokémon will start to appear in the ruins.

The tiles are very faintly colored, and when they're put together correctly, you'll see a picture of a Kabuto.

2 ALPH LAB

Catch at least three differently shaped Unown and show them to the researchers inside the lab. One will alter your Pokédex so that you can keep track of the Unown that you catch. They will be listed in the order that you catch them in. There are many different types of Unown.

3 4 5 PUZZLE ROOM

Later: Once you can use Surf, you can return to these caves to solve three more sliding rock puzzles. You can also use Surf and Strength to get to rooms 4 and 5 through Union Cave. Try to solve all four of the puzzles in the puzzle rooms if you can.

6 ITEMS AND INSCRIPTIONS

As you'll discover in Crystal, there are many secrets beyond the four puzzle rooms. You'll find a different cryptic inscription on the back wall of each room. The inscription in the first puzzle room directs you to use your Escape Rope then reenter the room to open a doorway to a special room. Pick up four items in the room then jump into the hole to reach another room with an Unown message. Use Flash to open the door in room 3. If you possess the Water Stone, the door will automatically open in room 4. Make Ho-oh your lead Pokémon to open the door in room 5.

Union Cave

When you first visit Union Cave, you probably won't be able to use Surf and Strength, which you need to use to get around the entire cave. You will be able to explore the first floor and the area marked Basement 1-1, though, and you should talk to everyone you see. Some people have very interesting information.

1 LAPRAS

Once you can use Surf, enter the second Basement level of Union Cave on a Friday. It is the only place to find Lapras, the Water-and-Ice-type. Lapras will continue to appear there, even after you catch it.

Route 33

Route 33 is extremely short, but there is one Trainer along the way who will want to battle. When you beat the Trainer, he will offer to give you his phone number. Take it to see what he has to tell you later on. Check the tree for a Pscureberry—it will come in handy.

Azalea Town

Many friendly Slowpoke used to roam freely around Azalea Town, but something has made them disappear. It's pretty certain that Team Rocket is behind the disappearance. Hurry over to Kurt's House on the left side of town to get to the bottom of the mystery!

1 KURT'S HOUSE LURE BALL

When you get to Kurt's House, he can't talk to you because he's on his way to the Slowpoke Well in search of Team Rocket. Walk back to the Slowpoke Well and help Kurt out. When Team Rocket is finally defeated in town, Kurt will give you the Lure Ball. If you bring Kurt different Apricorns, he will make you different balls.

2 SLOWPOKE WELL

Once you've visited Kurt's House and learned the details of the Slowpoke disappearance, the man who was blocking the well will be gone. Go down into the well to help Kurt defeat Team Rocket and make Azalea Town a safe place for Slowpoke once more.

3 POWER UP CHARCOAL

After you save the Slowpoke, the man inside the house will tell you that his apprentice is missing. Look for the apprentice in Ilex Forest. When you find him, help him out. See the Ilex Forest section for more information on helping the apprentice.

4 AZALEA TOWN GYM

Once the Slowpoke have been saved and all is well again in Azalea Town, you can enter the Gym and take on its leader. A few Trainers are also inside the Gym. Nearly all of the people inside the Gym use Bug-type Pokémon, so take along Fire- or Flying-types.

AZALEA TOWN

GYM LEADER: BUGSY

LEVEL 14	METAPOD	BUG
LEVEL 16	SCYTHER	BUG/FLY
LEVEL 14	KAKUNA	BUG/PSN

Bugsy likes Bug-type Pokémon, which makes your job much easier. Use Fire-, Flying- or Rock-types to squish Bugsy. When you defeat him, he will award you with the Hive Badge and TM 49, Fury Cutter. Fury Cutter's attack power doubles when it's used continuously.

PRIZES: HIVE BADGE/TM 49 (FURY CUTTER)

The Hive Badge will give you the power to control Pokémon up to Level 30 and allow you to use Cut outside of battle.

Once again, your Rival will have whichever starting Pokémon your starting Pokémon is weak against. A strong Electric-type could deal with many of your Rival's Pokémon nicely, especially if your Rival has a Croconaw. If your Pokémon are over Level 16 and are completely healthy, you should be able to outlast Rival.

RECOMMENDED POKÉMON TYPES: ELECTRIC, FIRE, GRASS, WATER

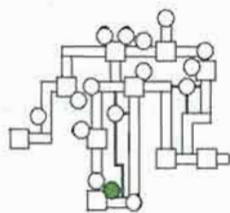

RIVAL!
After you defeat Team Rocket, your Rival will appear. Your Rival is strong, but if your Pokémon are over Level 16 and healthy, you'll be fine.

Until you have defeated Team Rocket and rescued the Slowpoke, a man will block the entrance to the Azalea Town Gym.

Later: Surf to the area marked A on Basement 1 to reach Basement 2. There you will talk to the researcher, who will give you the King's Rock. You can also Surf to the other side and pick up TM 18, Rain Dance.

The dark, gloomy forest is very large and confusing. After you help the Apprentice, you can explore the forest to find TM 02, Headbutt, which can shake Pokémon out of trees. The girl in the guard house will give you TM 12, Sweet Scent, which can attract more Pokémon to you.

1 FARFETCH'D ON THE RUN

Farfetch'd is in the middle of the forest. Chase it in the box pattern shown on the map to the right, then chase it back up to the Charcoal Maker's Apprentice. The Charcoal Maker will give you HM 01, Cut! Use Cut to remove the tree at the top of the path that is blocking your way up to Route 34. If you go back to Azalea Town to the Charcoal Maker's House, the Apprentice will give you Charcoal.

Route 34

Route 34 falls between Ilex Forest and Goldenrod City. Near the top of the path is the Pokémon Daycare. You won't be able to get Soft Sand until you can Surf over to the three girls at the bottom left of Route 34.

1 POKÉMON DAYCARE

You can leave up to two Pokémon in the care of the Daycare Man and Lady. If you leave two with the couple, you might get a Pokémon Egg. In Crystal, the man at the Daycare will give you the Odd Egg. Hatch it to see what's inside.

Later: Your Pokémon will gain levels, learn new moves and maybe even produce eggs if you leave them at the Pokémon Daycare. Return to the Daycare a few hours after you drop off a pair to see if an egg has appeared.

Route 34 leads to a large city that has a Radio Tower, a Bike Shop and a huge Department Store. There are many things to see and do there—make sure you've accomplished them all before you head off to the next city or route. Team Rocket can be seen skulking around the city.

1 RADIO TOWER

BLUE CARD RADIO CARD

The radio station is having a contest. Talk to the third person behind the counter to enter it. Maybe you'll win a prize! In Crystal, there is a new radio show, Buena's Password. Listen to Channel 10.5 on the radio to hear the password, then go to the tower to pick up a Blue Card. If you get the password right, you'll get a point on your card. You can trade points for cool prizes.

Once you get the Radio Card, you can listen to many radio programs, including the Lucky Channel. The program broadcasts one number a week. If your Pokémon match that ID number, you win.

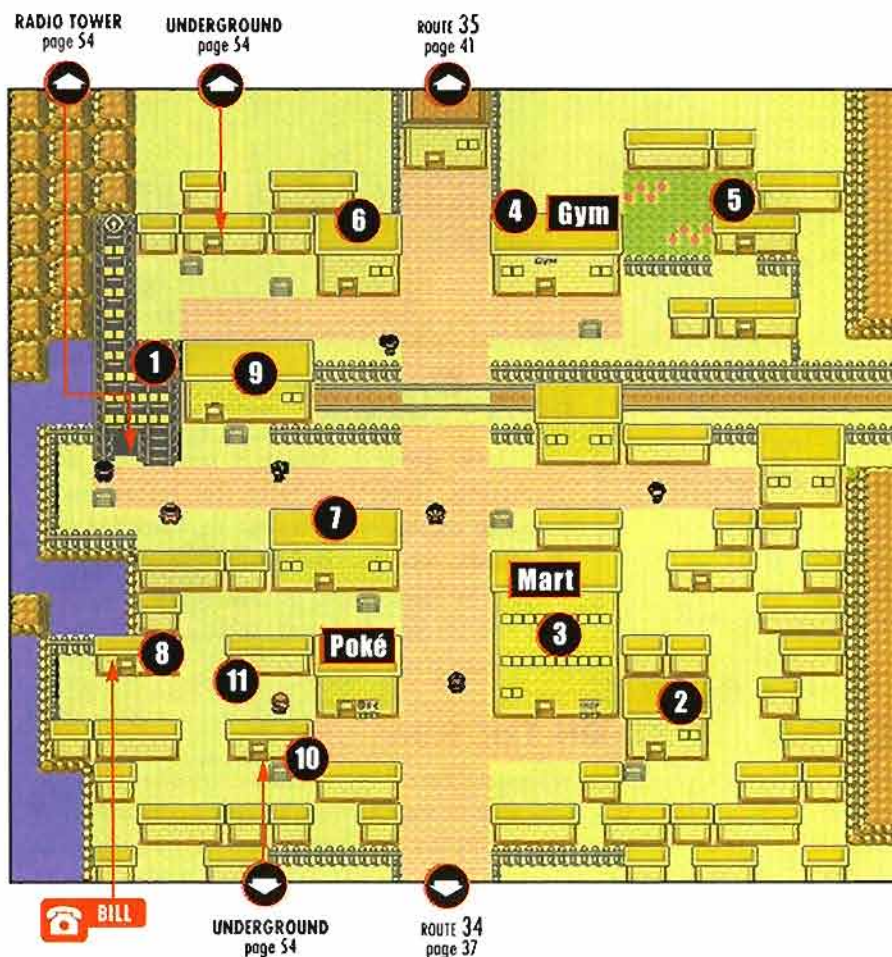

Later: Trade with as many Trainers as possible during your journey to acquire Pokémon with several different ID numbers. Each week, the Lucky Channel selects a different number, so tune in to channel 8.5 regularly. If you do have a matching number, go to the Radio Tower to claim a prize.

2 BIKE SHOP

BICYCLE

When you wander into the Bike Shop, the owner will ask you to ride around on one of his bikes to show everyone how much fun it is. You can move much faster with the bike. You can register the bike by highlighting it in your Pack then choosing SEL from the menu. After that, just hit Select when you want to ride.

3 DEPARTMENT STORE

TM 27/RETURN TM 21/FRUSTRATION

Talk to everyone inside the store for interesting information, including news of a woman who visits the store every Sunday and hands out TMs to Trainers. If your lead Pokémon likes you a lot, the woman will give you TM 27, Return. If not, you will get TM 21, Frustration. A boy on the fifth floor wants to trade a Drowzee (or an Abra) for a Machop. It's holding a Gold Berry. In Crystal, there is a rooftop marketplace that is open for business occasionally. It has lots of bargains.

5 TREE RELIEF SQUIRTBOTTLE

The woman inside the house has information about the tree that blocks the way to Route 36. After you beat Goldenrod City Gym Leader Whitney, go back to the house. If you've spoken to the girl near the tree, the woman will give you the Squirtbottle. You must talk to the woman's little sister near the mysterious tree so she will lead you to her big sister and the Squirtbottle in Crystal.

6 PET NAMES

A Name Rater lives in Goldenrod City. He will rate the name of the Pokémon that is first in your party and give you the option of changing that Pokémon's name. You can use the Name Rater to change the names of all your Pokémon except those you received in trade.

7 LET THE GAMES BEGIN

The Goldenrod City Game Corner has two games of chance for you to play. Both are pretty difficult but very fun. You can't play the games until you've picked up the Coin Case in Goldenrod City's Underground Path. Exchange some of your money for coins—then play at any of the game machines. If you win big, you'll be able to exchange your coins for the prizes shown at the right.

GAME 1

Stop the three revolving wheels on the Slot Machine one at a time with the A Button. If you bet three coins, you can win with any horizontal or diagonal line of three identical symbols. Bet two coins—any horizontal row wins. If you bet one coin, the three middle symbols have to match. Each symbol's payoff is shown below.

4 GOLDENROD CITY GYM

Every Trainer in Goldenrod City Gym is female, which is interesting but doesn't change anything. Trainers are Trainers. You have to get through quite a few Trainers to reach Whitney, the tough Gym Leader. The Goldenrod girls prefer Normal-type Pokémon.

GOLDENROD CITY

GYM LEADER: WHITNEY

Whitney has only two Pokémon, but they're pretty powerful Normal-type Pokémon. If you've managed to train a Fighting-type of your own, you'll do well. Miltank uses an attack called Rollout that increases in power each turn. Try to take Miltank out quickly before Rollout takes you out.

LEVEL 18 CLEFAIRY NRM

LEVEL 20 MILTANK NRM

PRIZES: PLAIN BADGE/TM 45 (ATTRACT)

GAME 2

Guess which of the 24 cards has been dealt on the left in this Card Guessing Game. You have 12 tries per game, and you must bet three coins. You pick one randomly generated card with A, and it is placed on the left. Next, you choose a vertical row, a single or double horizontal row or a single card. The fewer cards you bet on, the higher the payoff. Try choosing rows at first, then, as more cards are eliminated, move to single cards. After 12 cards are eliminated, the deck is reshuffled and the game starts over.

8 BILL'S HOUSE

Bill is not home, but his mom and sister are. Bill's sister will give you his number, which you can use to see how full your current storage box on Bill's PC is. Bill will call you when you fill up your box. After you meet Bill in person, return to this house for a special treat.

9 GOLDENROD CITY STATION

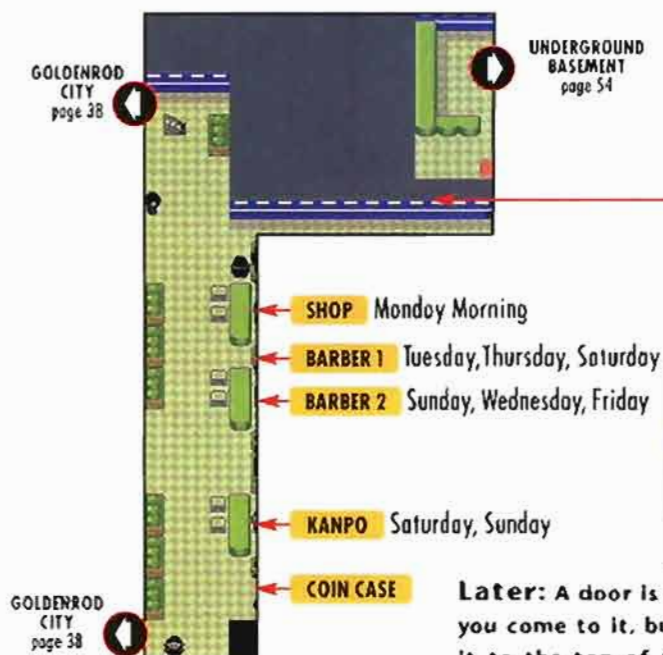

The Goldenrod City Station is a train station. The train won't be coming in for a long while, although you won't know that right away. When the Magnet Train finally does start to run, you will be able to take it to Saffron City in Kanto. But you have to fix the train's power supply and find a ticket in Kanto, and that is still a long way off.

Later: After you have fixed the problem at the Power Station in Kanto, you will need to get a Railway Pass in Saffron City. The train runs anytime you want to ride it, and it makes traveling between Johto and Kanto very easy.

10 UNDERGROUND

The Underground is a tunnel that connects several areas of Goldenrod City together. There are shops you can visit on different days in the Underground, so be sure to stop back often to try out the services they have to offer. Details about the Underground are located in the Radio Tower and Underground section on page 54.

Later: A door is locked the first time you come to it, but after you've made it to the top of the Radio Tower you will get a Key Card that lets you into the locked section of the Underground.

Later: After you've met up with Bill in Ecruteak City, go back to his house in Goldenrod, where you will receive an Eevee.

BARBER 1 AND BARBER 2
 The Haircut Brothers are in residence on different days. Both will cut only one of your Pokémon's hair a day, so choose wisely. Pokémon are happier and friendlier after a haircut.

SHOP
 The Bargain Shop is open on Monday mornings. All of its items are dirt cheap. Even if you don't need them, you can buy one of each and sell them to another shop and make a little profit. Not bad!

KANPO
 Kanpo sells medicine at low prices, but they're bitter and your Pokémon won't like them much. Maybe the potions aren't a very good bargain. You can do better.

After you take on Red at Mt. Silver, a man who is wise in the ways of Pokémon will appear in front of the Goldenrod City Game Corner. For 4,000 game coins, the Move Tutor will teach a move to a Pokémon of your choice. His repertoire includes Flamethrower, Thunderbolt and Ice Beam. The Move Tutor teaches on Wednesday and Saturday. Once you purchase a move from him, he'll disappear into the Game Corner.

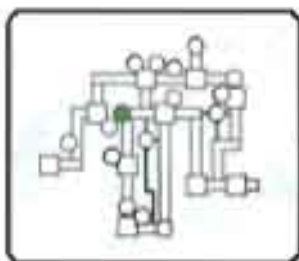

Route 35

Route 35 leads to the National Park. If you Cut the tree on the upper right, you'll gain access to Route 36. The Trainers there have lots of different Pokémon, so you'd better have lots of different Pokémon, too.

1 SPECIAL DELIVERY HP UP

Talk to the guard in the southernmost guard house. He will ask you to take a Pokémon that's holding mail to his friend on Route 31. After you finish the errand, come back to the guard house. The guard will give you HP UP.

National Park

The pretty park is filled with tall grass and trees. There are several Trainers to battle and chat with, and they've brought along Bug-, Grass- and Rock-type Pokémon.

1 BUG-CATCHING EVENT

Every Tuesday, Thursday and Saturday, a Bug-Catching Contest is held in National Park. Players compete to win very nice items, like the Sun Stone, the Everstone and the Gold Berry. Every person who enters wins something, even if it's just the consolation Berry. The bugs that you catch will be entered into your Pokédex, but you can keep only one bug. You can take one Pokémon only into the park with you to help. Use a Pokémon that can paralyze, put to sleep or otherwise stun other Pokémon to make them easier to catch. National Park is the only place to catch some Pokémon, so don't miss out.

This officer won't bug you during the day, but if you pass him at night, he'll challenge you to a battle. He's not a big challenge.

QUICK CLAW

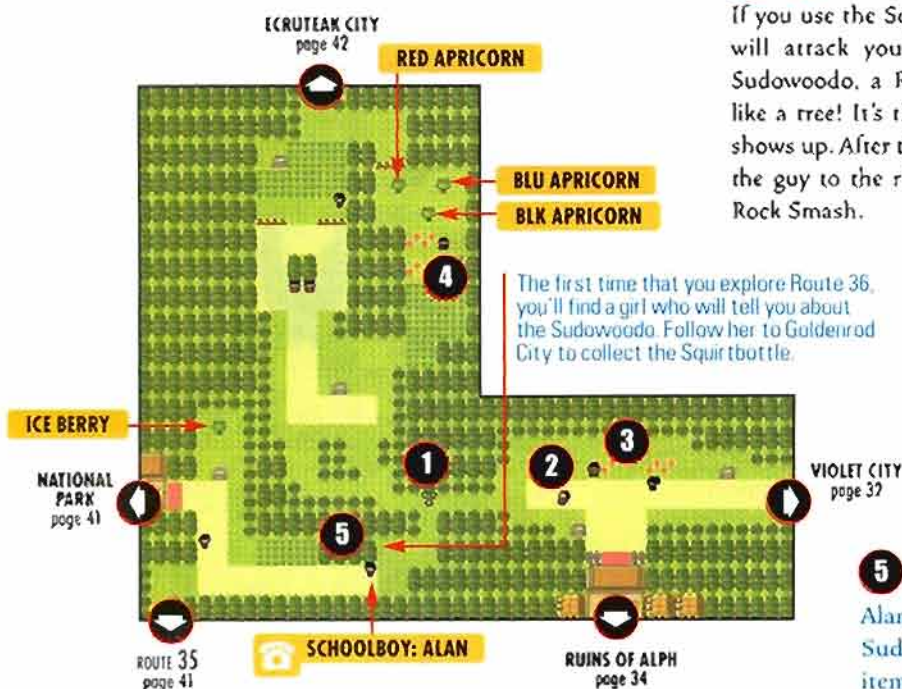

Route 36 & Route 37

The next two roads are short, but they lead in many directions and join several areas together. The tree you couldn't get past is still there, but this time you have the Squirtbottle from Goldenrod City. When the tree is gone, you'll finally be able to move on to the next area.

1 2 WEIRD TREE TM 08/ROCK SMASH

If you use the Squirtbottle on the weird tree, it will attack you. It's not a tree at all—it's Sudowoodo, a Rock-type Pokémon that looks like a tree! It's the only place that Sudowoodo shows up. After the tree is out of the way, talk to the guy to the right. He will give you TM 08, Rock Smash.

3 4 ONE DAY AT A TIME

HARD STONE MAGNET

Every Thursday, Arthur (3) will be waiting to give you Hard Stone, which increases the power of Rock-type attacks. On Sunday, Sunny (4) will give you Magnet, which increases the power of Electric-type attacks.

5 FIREPOWER

Alan, the schoolboy whom you meet on your way to the Sudowoodo, collects Pokémon and the occasional special item. Register his phone number. He may call you later to give you a Pokémon-evolving Fire Stone.

Ecruteak City

Ecruteak City once had two towers, but one burned down in a mysterious fire. There is a story that says the remaining structure, the Tin Tower, is visited by a Legendary Pokémon. You will meet Bill, whose PC storage system you use to keep your Pokémon safe, in Ecruteak.

1 THE KIMONO GIRLS HM 03/SURF

The five Kimono Girls battle with the five evolutions of Eevee. If you defeat them all, the old man will give you HM 03, Surf, an item you will need to continue your journey. The Kimono Girls are very good Trainers, and their Eevee evolutions are very tough.

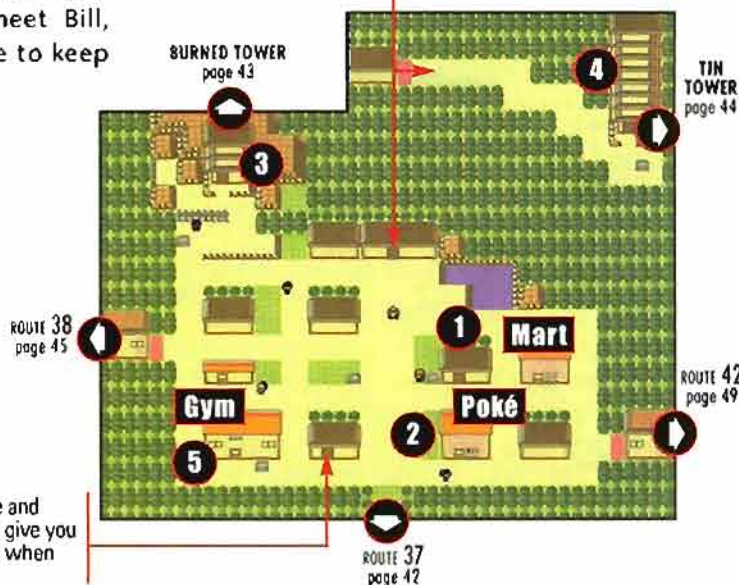

You don't have to take on all five Kimono Girls at once. Heal your Pokémon after each battle.

ITEMFINDER

Talk to the man in this house and answer his question. He will give you the Itemfinder, which beeps when you are near a hidden item.

The only way to the Tin Tower is through a building in the north section of Ecruteak City. A wise man will block your path there until you have the badge from Ecruteak Gym and the Clear Bell from your battle with Team Rocket in Goldenrod City.

2 BILL AND THE TIME CAPSULE

You will run into Bill in the Pokémon Center. He's fixing the Time Capsule. The day after you talk to Bill, you can use the Time Capsule to trade Pokémon from and to the Red, Blue and Yellow Pokémon games. After you meet Bill, return to his house in Goldenrod to get an Eevee.

PRIZES: FOG BADGE/TM 30 (SHADOW BALL)

The Fog Badge allows you to use Surf outside of battle, which is crucial at this stage.

RECOMMENDED POKÉMON TYPES: GROUND, PSYCHIC

Burned Tower

You will use Rock Smash inside the Burned Tower, so teach a Pokémon the move before you take on the tower. You also have to fall down the holes in the floor to pick up every item in the tower.

1 RARE CREATURES

When you drop down into the basement from the hole in the middle of the floor, you will see three Pokémon—but they will quickly run away. They are Raticon, Eerie and Suicune, and they will wander around Johto randomly. Try to catch them! In Crystal, you have to defeat Rival to fall to the basement.

In Crystal, you'll be able to catch Raticon and Eerie in the wild after meeting them in the Burned Tower, but you'll have to wait for Suicune.

Tin Tower

The Legendary Bird, Ho-oh, lives on the roof of Tin Tower. You can't go up the tower without the Rainbow Wing, which you will get from the Radio Station Manager in Goldenrod City in Gold, from the old man in Pewter City in Silver and from the guardians of Tin Tower (after you've caught Suicune, Raikou and Entei) in Crystal.

1 SNAG SUICUNE!

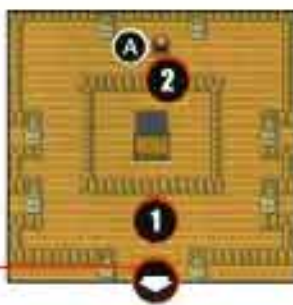

In Crystal, the Radio Station Manager will give you the Clear Bell. Take it to Tin Tower. Near the tower's entrance, you will meet three monks called the Wise Trio. The monks will challenge you to battle. If you defeat all three, they will let you enter Tin Tower, where you will encounter Suicune. It will not run away from you, which will make it much easier to catch. If it faints, it will not come back and you won't be able to catch Ho-oh.

2 ASCEND TIN TOWER

If you're playing Gold, you will get the Rainbow Wing in Johto. If you're playing Silver, a monk will block the stairs and you won't be able to continue up until you get the Rainbow Wing. If you're playing Crystal, the stairs won't even be there until you've beaten the Elite Four and caught Suicune, Raikou and Entei to get the Rainbow Wing. Follow the letters on the maps to get to the top of the tower.

The Legendary Bird, Ho-oh, is on the Tower's roof. Ho-oh will be at Level 40 in Gold, Level 70 in Silver and Level 60 in Crystal. Save your game when you get to the rooftop, and be sure to have plenty of Ultra Balls on hand and maybe a few Potions, Revives and other helpful items. You can use the Escape Rope, Dig or Fly to leave the Tower quickly. In Crystal, you must catch Suicune, Raikou and Entei and defeat the Elite Four to earn the Rainbow Wing from the guardians of the Tin Tower to gain entry to Ho-oh's roost.

Route 38 & Route 39

Routes 38 and 39 branch off in many places, and quite a few Trainers are hanging out on the two roads. They're using Flying-, Electric-, Grass- and Water-type Pokémon, among others. MooMoo Farm is along the way, and one of its Miltank is ill. You might want to help it out.

1 MILTANK MALADY

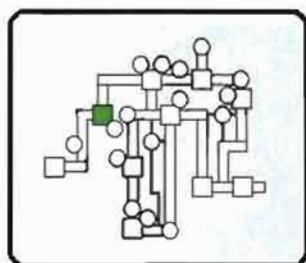

MooMoo Farm has a sick Miltank that won't give milk. Feed it many, many Berries to make it recover. After it recovers, you will get TM 13, Snore, as a thank-you present. MooMoo Milk will also be available for purchase after the Miltank is healed. It restores HP.

2 LASS BUT NOT LEAST

After you fight Lass Dana, she'll ask for your phone number. Give it to her—she will call you when she gets a good item, like a Thunderstone. She likes to share the items she wins in battle, which is good news for you.

Olivine City

The port town of Olivine City has a couple of interesting attractions—the Lighthouse and the port for the high-speed watercraft, the S.S. Aqua. There's a problem at the Lighthouse that you need to attend to before you can even attempt to battle the city's Gym Leader. In *Crystal*, there's a Battle Tower on the western edge of town. See the foldout section at the end of this guide for more information.

1 2 FISHING FOR ITEMS GOOD ROD HM 04/STRENGTH

The man in the house (1) will give you the Good Rod, which will help you catch different and higher-level Water-type Pokémon. The sailor in the other house (2) gives you HM 04, Strength, which will help tremendously in the next city. Strength allows you to move the squarish rocks inside caves and tunnels.

3 LIGHTHOUSE HELP

If you want to win Olivine City's Gym Badge, you'll have to head over to the Lighthouse where the Gym Leader is. The Lighthouse is full of Trainers trying to prove their worth, so be prepared for quite a few battles.

4 OLIVINE CITY GYM

You won't be able to battle in the actual Gym for a while. Visit the Lighthouse to find the Gym Leader, then work on her errand in the next city. When the Lighthouse's Pokémon is healed, the Gym Leader will head back to the Gym and you will be able to battle for the Badge.

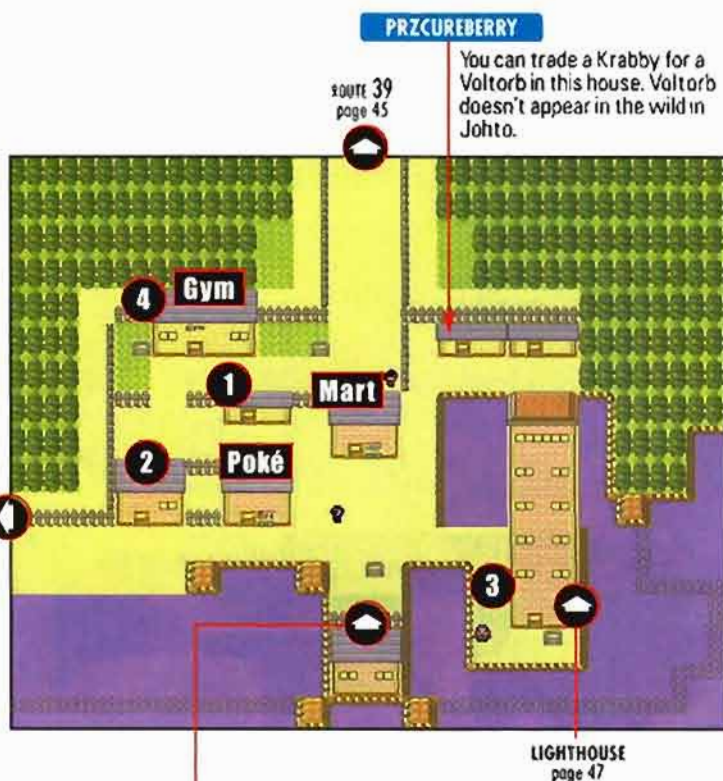

Later: After you help the Gym Leader, Jasmine, heal the Pokémon in the Lighthouse, she will go back to the Gym and offer to battle you. She doesn't cut you any slack, even though you helped her with her problem.

5 OLIVINE BAY

You can't really do anything at Olivine Bay until after you've defeated the Elite Four. It is where the S.S. Aqua docks, but you can't get on without a Ticket. Just ignore the area for now.

Later: After you beat the Elite Four and visit with Professor Elm, you will get the S.S. Ticket, which allows you to take the S.S. Aqua. The boat departs from Johto on Monday and Friday.

1 LIGHT'S OUT

Battle your way up the Lighthouse, following the path marked out on the maps. Make sure you've healed your Pokémon before you try to reach the top of the Lighthouse. When you get to the top of the Lighthouse you'll find Jasmine, who is nursing a sick Ampharos, Amphy, that usually powers the Lighthouse. Jasmine won't leave the sick animal to battle or get medicine, so it's up to you to head over the water to Cianwood City to get the medicine it needs at a drugstore. If you don't pick

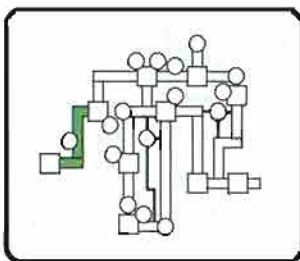

up the medicine, you won't get to battle in the Gym.

Later: Get the medicine in Cianwood City (check page 49 for more information) and return to the Lighthouse. Give the medicine to Amphy to heal it—

Jasmine will finally agree to go to her Gym so you can battle.

Route 40 & Route 41

Some routes are actually waterways! You'll need a Pokémon in your party that can Surf, plus a Grass-type and an Electric-type to deal with the Trainers you'll meet along the way. It's a long surf to Cianwood City—make sure your Pokémon are fit to travel.

1 MONICA'S GIFT

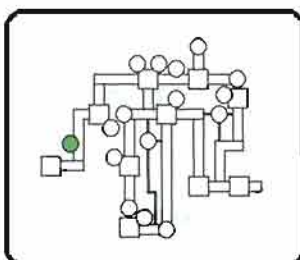

SHARP BEAK

On Monday, the oldest Day sibling, Monica, will be waiting to give you Sharp Beak, an item that powers up Flying-type attacks.

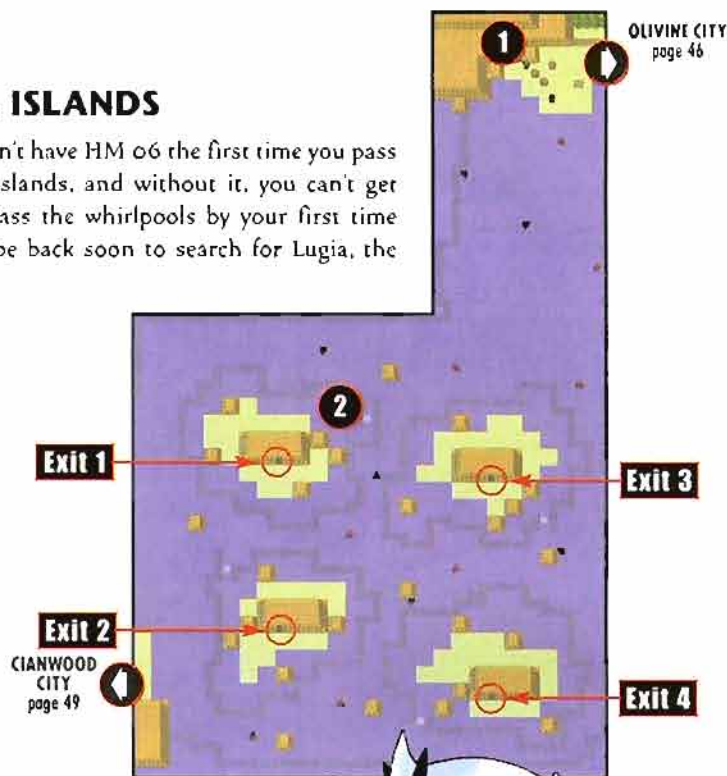

2 WHIRL ISLANDS

You probably won't have HM 06 the first time you pass through Whirl Islands, and without it, you can't get very far there. Pass the whirlpools by your first time through. You'll be back soon to search for Lugia, the Legendary Bird.

Whirl Islands

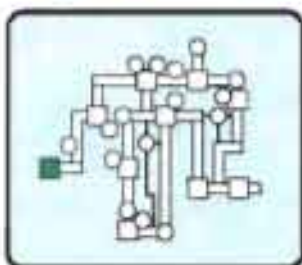

The maze of interconnected islets that make up Whirl Islands can be frustrating, so study the maps below. You'll need to pick up Whirlpool from Team Rocket's Hideout to get near the islands and the Silver Wing from the man in Pewter City (Gold and Crystal) or the Radio Station Manager in Goldenrod City (Silver) to find Lugia.

1 LUGIA BELOW

There are many items scattered about the caves, but if all you're after is Lugia, enter the island on the top right and follow the letters on the map in this order: F, H, I. You have only one chance to catch a Level-40 (Silver), or Level-70 (Gold) or Level-60 (Crystal) Lugia. Save the game before you try.

Cianwood City

You have to head to Cianwood City to get the medicine for the Ampharos in Olivine City, and while you're there, you should pick up the Gym Badge, too. You'll get something very cool if you win. Crush the boulders near the top of the city to find some interesting stuff.

1 GET THE MEDS SECRET POTION

Cianwood's special drugstore-type Pokémon Mart has been around for over 500 years. If you talk to the person to explain the Lighthouse dilemma, you will get the Secretpotion. The next time you return, you will find regular Potions and similar Pokémon merchandise for sale. The building is not marked with a "Mart" sign.

2 CIANWOOD CITY GYM

You need to use Strength, which the sailor in Olivine City gave you, to make it to the Gym Leader battle in Cianwood City. If you push the boulders as shown, you'll be ready to battle.

After you beat the Gym Leader, his wife will present you with HM 02, Fly. You can travel to places you've already been very quickly with Fly.

You'll meet Suicune fanatic Eugene in the north end of Cianwood City. He'll challenge you with Ghost-, Electric- and Poison-type Pokémon. You should counter with Ground- and Bug-types.

The Poké Seer in the northernmost building is well-versed in Pokémon knowledge. She can tell you much about your Pokémon, including where and when you caught each of them.

If you hook up your Game Boy Printer before you talk to the man inside the house, he will take a picture of you and your Pokémon that you can print out.

BERRY JUICE

The Trainer in this house is afraid his Pokémon, Shuckie, a Shuckle, will be stolen, so he gives it to you for safekeeping. If you return with it later and it is happy, the Trainer will give it to you as a present.

CIANWOOD CITY

GYM LEADER: CHUCK

Be sure to heal your Pokémon before entering the Gym—you'll have to battle two Trainers in a row. Move the boulders with Strength to reach Chuck. Try to knock Poliwrath out early, before it attacks with Dynamicpunch, which will almost certainly confuse your Pokémon.

The fisherman at the edge of the lake will offer to call you if he catches anything of interest. Register his phone number. He may find a Water Stone.

Mt. Mortar

To conquer the inside of the mountain properly, you'll need to bring along Pokémon that use Surf, Flash, Strength and Waterfall. An Escape Rope or a Pokémon that knows Dig will help if you get lost. You won't have Waterfall the first time you visit, so you'll have to come back.

Later: From "F" on the second floor, work your way up and around to "G" to reach the first floor. Go up, then down to reach "H." Walk to the right to find the Karate King, Blackbelt Kiyo. If you defeat him, he will give you a rare Fighting-type Pokémon, Tyrogue.

Mahogany Town

You will run into a number of oddities and road blocks when you first wander into Mahogany Town. You won't be able to enter the Gym or Route 44. The Pokémon Mart is selling really strange items, and there's a rumor that a red Gyarados has appeared at the Lake of Rage.

1 MESSED-UP MART

Something isn't quite right about the Pokémon Mart in Mahogany Town. They're selling bizarre items, including Slowpoketail. Could this be related to what happened at Slowpoke Well?

Later: When you come back to the shop with Lance after you've visited the Lake of Rage, it's obvious that the shop is actually a cover for Team Rocket's hideout! When they're completely defeated, the store will become a normal Pokémon Mart.

3 MAHOGANY TOWN GYM

Do you know where you're going to? It's not the Gym, at least not at first. You have to walk up to the Lake of Rage before you can do anything else in the town.

Later: After you and Lance take Team Rocket down, the guy blocking the door will be gone and you'll be able to enter the Gym to battle. The inside of the Gym has an icy-slick floor, so be sure to follow the pattern shown at right to reach the Gym Leader.

MAHOGANY TOWN

GYM LEADER: PRYCE

Pryce prefers Pokémon of the chilly variety, including Piloswine, an Ice-and-Ground-type. Ideally, you will deal with the Ice-type attack-favoring Pokémon very differently. Use a tough Water-type on Piloswine. Pick a Fire-type for your battle with Dewgong and an Electric-type to duke it out with Seel.

1 TAKE THE TOLL?

If you have the extra money and you don't mind paying it to Team Rocket, you can walk up the paved path and through the gate to get to the Lake of Rage. If you don't want to part with the money, walk around through the grass instead. After you have stopped Team Rocket for good, the regular guard will return to the gate.

Lake of Rage

Strange things are happening at the Lake of Rage. Gyarados are taking over the waters, which were once packed with Magikarp. Team Rocket is at it again!

1 WESLEY OF WEDNESDAY

BLACK BELT

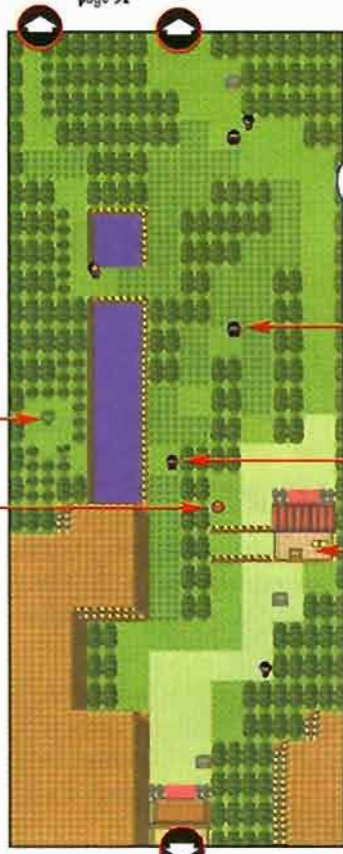

Visit the Lake of Rage on a Wednesday to talk to Wesley. He will give you Black Belt, which increases the power of Fighting-type attacks. As with all the Day siblings, you will get the item only once.

Save your game, then surf up to the red Gyarados floating on the Lake of Rage, where a battle will begin. Try to catch the rare creature. Even if you don't catch it, you will pick up the Red Scale, which will interest Mr. Pokémon. After you defeat Team Rocket, return to the lake. New Trainers (circled in yellow) will appear for you to battle.

Rocket Hideout

Team Rocket supposedly disbanded three years ago, but it seems they're back! They're conducting a cruel experiment that is filling the Lake of Rage with Gyarados. After you capture or defeat the red Gyarados, a Trainer named Lance will ask for your help against Team Rocket.

1 2 DOUBLE ROCKET

When you pass in front of the Persian statues, an alarm will go off and two Team Rocket members will run to battle you. Try to reach the PC in the center room to shut off the alarms.

3 TRIP THE TRAPS

Pokémon are hiding in the floor. The first time you step on one of the tiles marked on the diagram with a red dot, a Pokémon will attack. Afterward, that part of the floor will be safe to step on. Defeat a row, then use the diagram to the right to remember where you stepped to create a shortcut.

4 GET THE CODES PASSWORD

You'll need two passwords to get into the boss's room. Beat the two Rocket members at opposite ends of Basement 3 to get the passwords you need.

5 THE BIRD SINGS PASSWORD

After you enter the boss's office, talk to the Murkrow inside. It will give you the final password you need to stop the signal from transmitting.

6 SHUT OFF THE POWER HM 06/WHIRLPOOL

Defeat the last member of Team Rocket, then team up with Lance to fight the Electrode that are powering the transmitter that has turned all of those poor Magikarp into Gyarados. You'll receive HM 06, Whirlpool, when you've completed the task and Team Rocket is defeated.

Radio Tower & Underground

After you've defeated seven Gym Leaders, Team Rocket will take over the Radio Tower in Goldenrod City. You'll have to go back to the Radio Tower and the Underground to finish off Team Rocket. There are lots of Team Rocket members in the tower. Watch it!

1 EVENING BROADCAST BLUE CARD

Buena, the host of a new radio show, is on the second floor. Talk to her before the Team Rocket takeover to get the Blue Card. Then listen to the show between 6:00 p.m. and midnight every night for a password. When you visit Buena and give her the password, she'll give you points that you can redeem for prizes.

You need a key to open the shutters and use the stairs on the right. Until you get one, use the stairs in the middle of the building. After you defeat Team Rocket, the woman closest to the shutters will reward you with TM 11, Sunny Day.

3 MANAGER? BASEMENT KEY

After you defeat the fake Station Manager in a battle, he will tell you that the real Station Manager is being held in the locked-off area of the Underground. He will give you the Basement Key you need to open the locked area.

4 GO UNDERGROUND

Head back to the Underground area where you can get haircuts for your Pokémon and walk down to the locked door. Use the Basement Key to open the door, then enter the Basement.

5 FLIP THE SWITCHES

It's a bit confusing, but if you flip the switches in Underground Basement 2-1 in reverse order (3, 2, 1) you will clear the way to the door at the bottom right and you will be able to continue on. If you get confused or mess up, return to B1—the switches will reset. After you talk to the Station Manager, flip switch 4 to get out.

7 ATTENTION SHOPPERS!

If the area seems familiar, it's because it's the basement of the Goldenrod City Department Store. If you visit the Basement often, you should eventually be able to access every corner to pick up the items scattered about.

8 RETURN TO THE TOWER

Use the Card Key to open the shutters that block the way to the stairs. Defeat Team Rocket's Leader and make Team Rocket call it quits. The Leader uses Dark- and Poison-type Pokémon, but he won't give you much trouble. After you defeat Team Rocket, the real Station Manager will return. He'll reward you with the Rainbow Wing in Gold, the Silver Wing in Silver and the Clear Bell in Crystal. Use the item to find a legendary Pokémon.

RAINBOW WING (GOLD)

SILVER WING (SILVER)

CLEAR BELL (CRYSTAL)

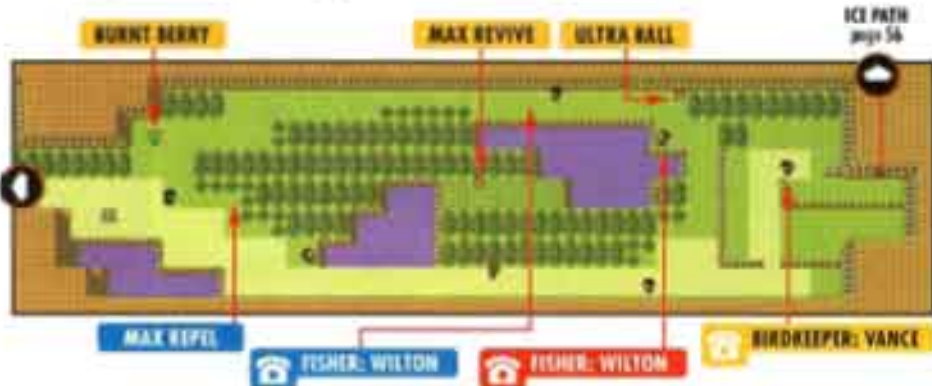

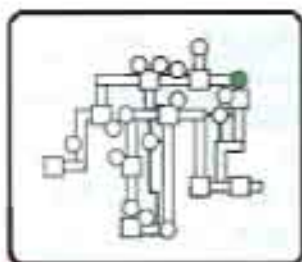

Route 44

There are quite a few Trainers on Route 44, and they're using a variety of Pokémon, including Water-, Flying-, Rock- and Fire-types. You should do very well against all comers if you bring along an Electric-type and a Water-type.

MAHOGANY TOWN page 51

Ice Path

The Ice Path is very slippery in places, making your progress very difficult. Study the diagrams closely to make your way through the slick maze. You will also need a Pokémon with Strength to move boulders around so that you can continue on to Blackthorn City.

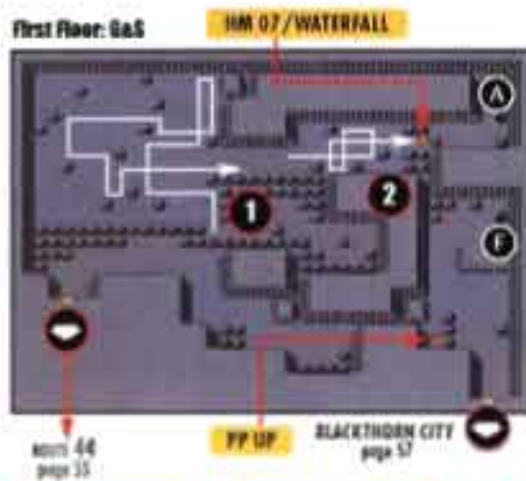

1 SLIPPING AND SLIDING

When you step on the ice floor of the path, you won't stop until you've hit a wall or a rock. It takes some planning and logic to get to where you want to go. You can use trial and error, or you can follow the paths shown on these maps. No Pokémon will pop up on the slippery surface.

2 UP THE FALLS

HM 07/WATERFALL

After you pass the first slippery floor, you will see an item on the ground to the far right. It's HM 07, Waterfall, and it's essential in several areas, including Whirl Islands, Mt. Mortar, and many other places. Pick it up!

You need to push the four movable boulders marked 1 through 4 down the holes as shown by the arrows to give yourself stopping places on the large, icy floor below. With the boulders in place, you can reach the ladder to B3. Move through the rest of the rooms as shown, stopping to pick up the very nice items on the floor—you will be in Blackthorn City in no time.

Blackthorn City

Blackthorn City is the home of Lance, the Elite Four alumnus you helped defeat Team Rocket. Clair, the current Blackthorn City Gym Leader, has vowed to be stronger than Lance, and the battle with her is your final Gym Leader battle in Johto. It won't be easy.

1 MOVES FORGOTTEN

The Move Deleter can make your Pokémon forget any move they've learned, including moves they learned from Hidden Machines (HMs), which were unforgettable in Red, Blue and Yellow. Assess your Pokémon, then use the service if you feel it's necessary.

2 SANTOS OF SATURDAY SPELL TAG

One of the Day siblings, Santos, shows up by the small hill below the Gym on Saturdays. He will give you Spell Tag, which increases the power of Ghost-type attacks.

3 BLACKTHORN CITY GYM

The interior of the Blackthorn City Gym is a bit of a puzzle, so just follow the arrows to Clair. She's a proud person who claims to be the world's best Dragon Trainer. Even if you beat her, she won't give you the Gym Badge. She has another task for you to accomplish, first. That's tough!

GYM LEADER: CLAIR

If you don't have a tough Ice-type, it might be best to raise one before you battle with Clair—unless your Pokémon are much higher than Level 40. The Rising Badge allows you to use Waterfall outside of battle, and Pokémon of all levels will obey you.

You'll need Strength to push the boulders on the second floor, which will cover the lava on the first floor and allow you to proceed to the battle with Clair.

Dragon's Den

Clair won't give you the Rising Badge until you've found the Dragon Fang in the Dragon's Den in Gold or Silver or endured an inquisition inside the Dragon Shrine in Crystal. If you tell the Dragon Master what he wants to hear, you'll be amply rewarded.

1 FANGTASTIC DRAGON FANG

Clair's request isn't very hard to fulfill. Enter the Dragon's Den, go through the ladders and surf to the Whirlpool. Use Whirlpool, then surf down and to the right until you reach the outcropping of land. In Gold and Silver, you'll pick up Dragon Fang to make Clair appear. She will somewhat reluctantly hand over the Rising Badge and TM 24, Dragonbreath. Professor Elm will call you to come back to his lab and pick up an item from him once you've picked up the last badge.

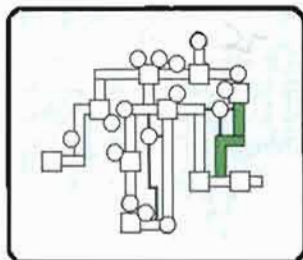

2 DRAGON SHRINE

The Dragon Shrine is dedicated to all the Dragon-type Pokémon said to live inside the cave. There won't be anything happening there at first.

Later: After the battle at Mt. Moon in Kanto, your Rival will become devoted to his training, and you can come back here to watch him train. He trains on Tuesdays and Thursdays.

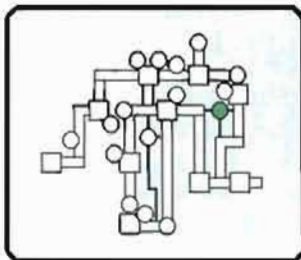

3 FIVE QUESTIONS

When you enter the Dragon Shrine in Crystal, you'll have to answer the Dragon Master's five questions about your Pokémon training philosophy. When considering your responses, you should remember that Pokémon are your beloved friends. If you answer the questions correctly, the master will force Clair to give you the Rising Badge. She'll give you TM 24, Dragonbreath, outside the shrine. If you make a return visit to the Dragon Master, he'll give you a Dratini that knows Extremespeed.

Route 45 & Route 46

Routes 45 and 46 are built into a mountain, so you will be traveling downhill. You can't walk back up, but you can fly. There are many good items scattered along the routes. Make a few trips to pick them up.

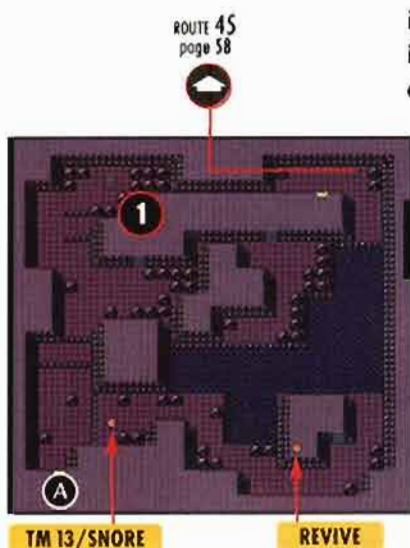

Dark Cave

You can enter the cave from Violet City, Blackthorn City, Route 31, Route 45 and Route 46. You'll need Flash to light your way through the cave and Rock Smash and Surf to find all the items inside. While there are a lot of fabulous items inside the cave, including TM 13, you don't have to enter it.

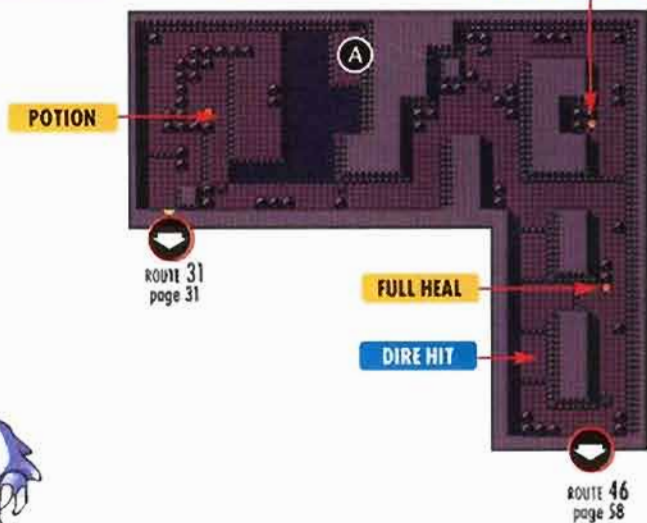

1 PARRY

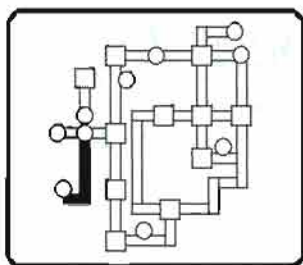

Take the far-left path down Route 45 to talk to Parry. Register his phone number—in Gold and Silver, Parry will call with information about where to catch Marill. You can take the other paths to face the other Trainers and pick up items by flying back up to Blackthorn City then taking different paths back down.

1 SHADY GUY BLACKGLASSES

Even though it's very dark in the cave, the person inside is wearing what appear to be sunglasses. If you talk to him, he'll give you Blackglasses, which will increase the power of Dark-type attacks.

Route 26 & Route 27

Route 26 and 27 are a little confusing, but they lead the way to Victory Road, so you'll have to get through them. You should bring along Pokémon that know Waterfall and Surf for the trip. Make sure your Pokémon are strong, healthy and attached to you before you leave for Kanto.

Clair from Blackthorn City will explain where you should go. Start in New Bark Town and surf over the water to the right of your house. You're on the way to Kanto and the Elite Four!

1 TRAIN WELL

TM 37/SANDSTORM

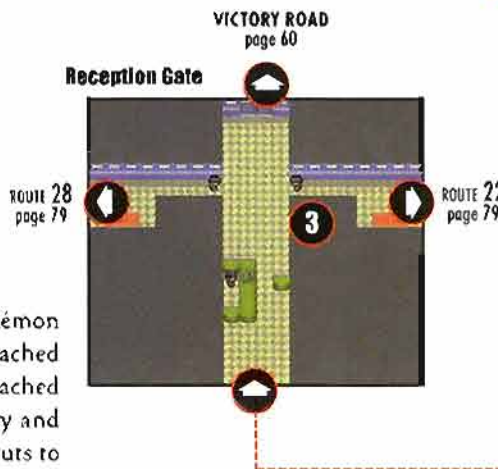

The woman in the house will check to see how devoted your Pokémon are to you. If she sees that the first Pokémon in your party is attached to you, she will give you TM 37, Sandstorm. Pokémon become attached to Trainers when they are healthy, used often, kept in the party and rarely made to faint. You can give your Pokémon items and haircuts to make them happy, too. If you treat your Pokémon well, they will treat you well, too.

2 DAY SIBLINGS' HOUSE

Enter the house if you want to see the Day Siblings' oath, which includes information about where and when each sibling appears in Johto. Of course, you already have the information, but it's a good place to check if you've missed a few of the siblings the first time around.

3 VICTORY ROAD

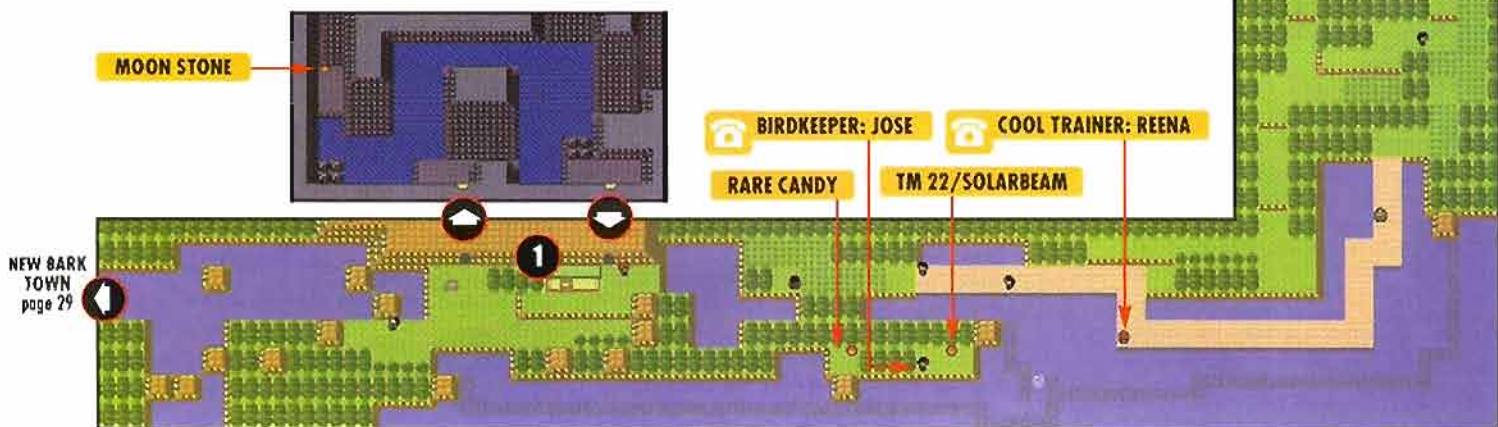

After a very long journey that includes surfing, battling and much item collecting, you will finally be on your way to Victory Road. You won't be able to pass until you have all eight Badges from Johto. Two men are blocking the paths that branch out to the left and the right. They won't be gone for a while. Just press ahead and worry about the two blocked paths later. You need more experience before you will be able to tackle the road to the left, anyway.

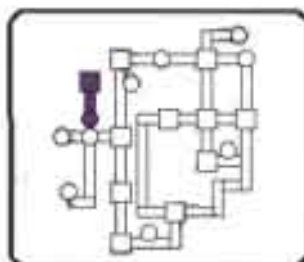

COOL TRAINER: GAVEN

ICE BERRY

Inside this house there is a very nice woman who will heal your Pokémon if they're tired and weak from all of the Trainer battles along Route 26. More battles are coming, so rest up!

Victory Road, Indigo Plateau & Route 23

You have one more obstacle before you make it to the Indigo Plateau and the Elite Four. The cave is really no big deal to get through, but the items inside the cave are a big deal! Pick up as many as you can, then head out to the Indigo Plateau.

When you try to leave the third floor of the cave, your Rival will challenge you to a battle, and he's added a sixth Pokémon to his team—Kadabra. Ideally, you'll have a Dark-type Pokémon such as Umbreon to battle Kadabra. If you don't have one, a strong Psychic-type or even an Electric-type is fine.

Vs. Elite Four

The Elite Four battle is misleading—you actually have to battle five excellent Trainers with very strong Pokémon. You can't stop at a Pokémon Center between battles, so you'd better bring some HP-restoring products, some Revives and other important items with you.

1 WILL

LEVEL 40	XATU	PSY/FLY
LEVEL 41	EXEGGUTOR	GRS/PSY
LEVEL 41	SLOWBRO	WTR/PSY
LEVEL 41	JYNX	ICE/PSY
LEVEL 42	XATU	PSY/FLY

RECOMMENDED POKÉMON TYPES:
DARK, ELECTRIC, FIRE, ICE, PSYCHIC

This Trainer's team are all dual types that include the Psychic-type. If you attack each Pokémon's other type's weakness, you should have no problems. For example, attack Xatu with an Electric-type, because Flying-types are weak against them. A very powerful Psychic- or Dark-type Pokémon, Level 55 or higher, could be used to combat the entire team on its Psychic-type.

2 KOGA

LEVEL 40	ARIADOS	BUG/PSN
LEVEL 43	FORRETRESS	BUG/STL
LEVEL 42	MUK	PSN
LEVEL 41	VENOMOTH	BUG/PSN
LEVEL 44	CROBAT	PSN/FLY

RECOMMENDED POKÉMON TYPES:
FIRE, PSYCHIC

Koga uses Bug-types and Poison-types, and with his first moves he'll try to poison your Pokémon. He'll also try to confuse your Pokémon, leaving them somewhat helpless. Take him out as quickly as you can with your Psychic-types and Fire-types. The longer the battle goes on, the less likely it is that you'll emerge victorious.

3 BRUNO

LEVEL 42	HITMONTOP	FTG
LEVEL 42	HITMONLEE	FTG
LEVEL 42	HITMONCHAN	FTG
LEVEL 43	ONIX	RCK/GRD
LEVEL 46	MACHAMP	FTG

RECOMMENDED POKÉMON TYPES:
FLYING, PSYCHIC, WATER

Unlike Koga, Bruno won't try to mess with your Pokémon's status. Instead, he will use Pokémon that strike hard and fast, hoping to knock your team out quickly and painfully. If you have a fast Psychic-type, use it to put the hurt on most of Bruno's team. Use a Water-type on Onix, the only non-Fighting-type in Bruno's team.

PREPARE FOR BATTLE!

Every one of the Trainers is using Level-40 to Level-50 Pokémon, and they aren't exactly pushovers. Your Pokémon should be in that same ballpark, or higher, or you'll really be in for a thrashing. A good team will have six different types of Pokémon and would do well if it included a powerful Electric-type, a strong Ice-type and a seasoned Fire-type. Pick your team carefully, studying the recommendations for each member of the Elite Four. Use Pokémon that you're comfortable with, and be sure to heal them with items between matches. The battles are not easy, and if you lose to one Trainer, you'll have to start all over again!

4 KAREN

LEVEL 42	UMBREON	DRK
LEVEL 42	VILEPLUME	GRS/PSN
LEVEL 45	GENGAR	GHO/PSN
LEVEL 44	MURKROW	DRK/FLY
LEVEL 47	HOUNDOOM	DRK/FIR

RECOMMENDED POKÉMON TYPES:
FIGHTING, GROUND, PSYCHIC

Karen, the last of the Elite Four, uses Dark-type Pokémon in battle. Her Pokémon are particularly weak against Fighting-types, but Water-types and Electric-types will also work against her dual-type Dark Pokémon. Karen's other Pokémon share the Poison-type and will be easily dispatched with a Psychic- or Ground-type.

CHAMPION LANCE

LEVEL 44	GYARADOS	WTR/FLY
LEVEL 47	DRAGONITE	DRG/FLY
LEVEL 46	CHARIZARD	FIR/FLY
LEVEL 47	DRAGONITE	DRG/FLY
LEVEL 46	AERODACTYL	RCK/FLY
LEVEL 50	DRAGONITE	DRG/FLY

RECOMMENDED POKÉMON TYPES:
ELECTRIC, ICE

Yes, it's the same Lance from the Lake of Rage. He's grateful for your help, but he's also the Champion, so you have to beat his team of mostly Dragon-types. His team is united in its Flying-type, so an Electric-type will deal damage to every member of the team. Dragon-types are weak against Ice-types, so a powerful Ice-type Pokémon should also be in your party.

S.S. Aqua

The S.S. Aqua takes Pokémon Trainers from Olivine City in Johto to Vermilion City in Kanto. The boat ride is relatively short, but you'll still have time for a little adventure at sea.

1 AQUA, MAN

Professor Elm presents you with an S.S. Ticket after you've beaten the Elite Four. Go to Olivine City's dock and talk to the people there. The last person will ask to see your ticket and show you to the boat. After your first boat trip, the boat will operate only on certain days.

2 GRANDBABY

The old man in room H needs your help. His granddaughter wandered off, and he'd like you to find her for him. He will give you the Metal Coat, an item that your Onix might take a liking to, if you can find her.

3 GET BACK TO WORK!

The sailor blocks your way to the rooms in the basement. He won't let you wander around belowdecks until you've rounded up his buddy. Search for the lazy sailor in room B, which is right next to your cabin. After the lazy sailor mutters an excuse for sleeping on the job, he'll get back to work, and his less lazy buddy will let you pass.

4 A CAPTAIN AUDIENCE

Make your way to room K, the Captain's Quarters. The old man's granddaughter is in the room harassing the captain. If you get the little scamp back to the old man's room, he will give you Metal Coat. After you've completed the search for the girl, you'll see an announcement that the boat has arrived at Vermilion City.

Take a nap on the bed to revive weary Pokémon. On your second boat ride and every trip after, you can make the boat arrive instantly at your destination by resting on the bed.

Your first ride on the S. S. Aqua takes you to Vermilion City. Even if you've visited Kanto before in Red, Blue or Yellow, you are still in for some surprises—many things around Kanto have changed. If this is your first visit, you have a lot of exploring to do!

1 CRUISIN'

After the first trip to Kanto, the boat will follow a regular schedule. It departs from Vermilion City on Wednesdays and Sundays, and it departs from Olivine City on Mondays and Fridays. You can return to Johto by walking if you can't wait for the boat to leave.

2 LEADER OF THE PACK

RARE CANDY POKÉ DOLL

If you talk to the President of the Pokémon Fan Club, he will start telling you a very long story. If you listen to his entire story, he'll give you Rare Candy for your polite attention.

Later: After you've spoken to Copycat in Saffron City, return to the Pokémon Fan Club and talk to the guy at the table. He will listen to your story about Copycat's missing Poké Doll and ask you to return it to her.

3 SNOOZIN'

Snorlax is blocking the way to Route 11 and Diglett's Cave. You'll need to get a few things done before Snorlax will get out of your way for good.

Later: After you help out at the Power Plant and pick up the Exp. Card for your Pokégear in Lavender Town, you will be able to move Snorlax. Set your Pokégear's radio to "Pokémon Flute" to wake Snorlax and get it out of your way. It's the only chance you have to catch Snorlax.

VERMILION CITY

GYM LEADER: LT. SURGE

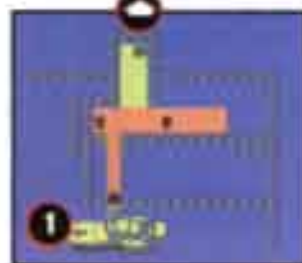

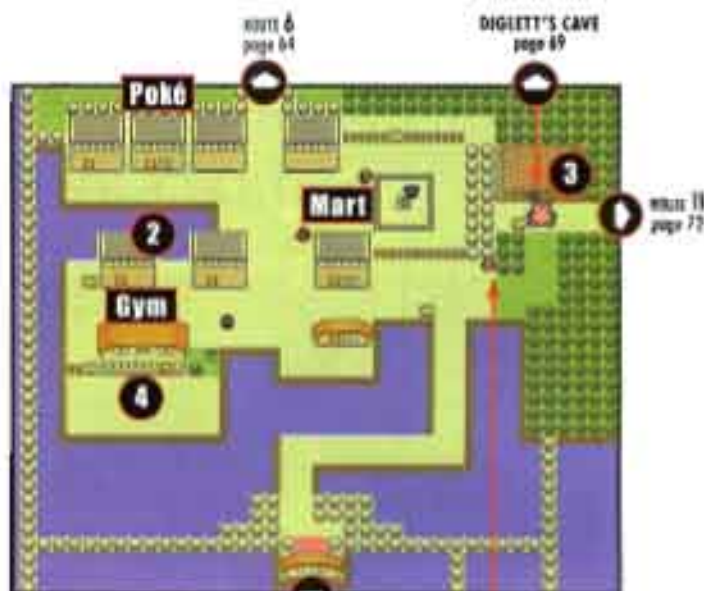

The traps that once guarded Vermilion City Gym are gone, but Lt. Surge is still in residence. If you take a good Ground-type into battle, you won't be touched by the electrical onslaught of Surge's Electric- or Steel-type Pokémon.

The Power Plant is located in the middle of Route 10—you have to go through the Rock Tunnel then up Route 10 to the water, where you can Surf back down Route 10 to the building as shown by the white arrow on the map. Assess the situation at the Power Plant and try to fix it, or you won't get much farther.

1 GAME FREAK

TM 03/CURSE

The fine people who created Pokémon are working in Celadon Mansion. You can talk to the Programmer, the Game Designer, the Graphic Artist and another fellow who keeps his job title to himself. Wait until dark, then take the path behind the mansion to reach the fourth floor and talk to the man inside. He will tell you a scary story about a bicycle, then he will give you TM 03, Curse.

3 CELADON CITY GYM

Make sure you have a Pokémon with you that can use Cut, so you can eliminate the single obstacle blocking the way to Celadon City's Gym. Inside the Gym, you might run into some of Erika's followers, but, like their Leader, they're using mostly Grass-type Pokémon. They won't give you much trouble, because you're already carrying a Fire-type and an Ice-type to deal with Erika. Heal your Pokémon before facing Erika if necessary.

CELADON CITY

GYM LEADER: ERIKA

RECOMMENDED
POKÉMON TYPES:

FIRE, ICE, PSYCHIC

PRIZES: RAINBOW BADGE/TM 19 (GIGA DRAIN)

Giga Drain will give your attacking Pokémon a boost in HP equal to half the amount of damage the attack inflicts upon the opposing Pokémon.

Erika is a fan of Grass-types, which means you should be a fan of Fire-types and Ice-types when you battle. Watch out for her tough attacks, like Solarbeam, which could put the hurt on your team. If you strike quickly with your most powerful Fire- or Ice-type attacks, you'll do very well.

CELADON CITY
page 70

Routes 16, 17 & 18

Route 16 is short and leads to Route 17, which is a Bike Path. Once you start going downhill, you will keep going, even if you stop pushing Down on the Control Pad. You can stop to fish, but otherwise you have to move up or down the hill constantly. Route 18 is not downhill, so you can stop wherever you want to.

Fuchsia City

Fuchsia City has seen some changes since the first Pokémon games. The Safari Zone is closed because the director is traveling abroad. Koga, the former Gym Leader, is now part of the Elite Four. There's also some construction going on that will keep you from Cinnabar Island for a short time.

The world-famous Safari Zone is closed because its director has gone on a much-needed vacation. He won't be back.

You can't take the road to Route 19 as you might like, so if you want to get to Cinnabar Island, you'll have to go around the other way, through Pallet Town. The construction will be completed when you reach Cinnabar from the other direction.

2 FUCHSIA CITY GYM

Koga's daughter, Janine, is the new Fuchsia City Gym Leader. She has taught her Trainers well in the art of disguise, and each one of them appears to be Janine when you meet them. When the battle starts, however, you will see that it's not Janine you're fighting.

FUCHSIA CITY

GYM LEADER: JANINE

RECOMMENDED
POKÉMON TYPES:

PSYCHIC, GROUND, FIRE

PRIZES: SOUL BADGE/TM 06 (TOXIC)

Janine prefers Poison-type Pokémon, so you should protect yourself with Psychic-, Ground-, and Fire-type Pokémon. In addition to the Soul Badge, Janine will give you the poison-friendly TM 06, Toxic, when you beat her.

Follow the arrow's path to find the true leader of Fuchsia City's Gym. You will find it hard to walk around the Gym—there are tiny, almost invisible walls that force you into the paths of many of the Trainers.

Route 11

After you've cleared Snorlax out of the way in Vermilion City, you can take Route 11 to Route 12. There are a few Trainers to battle and lots of tall grass full of Pokémon. The Trainers use Flying-, Grass- or Fire-type Pokémon, so be prepared to battle those types.

VERMILION CITY

Route 14 & Route 15

Routes 14 and 15 also have plenty of Trainers waiting to battle you. Take along a few items that will keep your Pokémon strong for the entire journey.

1 A CHANSEY OPERATION

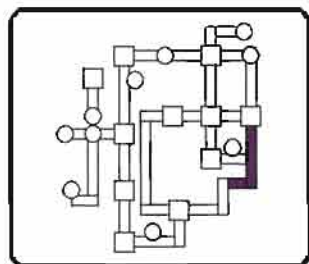

Cut down the tree blocking the way to reach the girl in the grass. She is willing to trade her Aerodactyl, the only one in the game, for your Chansey. Not a bad trade-off, even if it does take you a long time to find a Chansey. If you make the trade, you'll also get a Gold Berry.

FUCHSIA CITY

Route 12 & Route 13

If you're in the mood for Trainer battles, Routes 12 and 13 are definitely the places to be. There are many Trainers ready to do battle with you along the routes, and they have a great variety of Pokémon types—take a well-balanced team on your trip!

1 TAKE THE BAIT

If you talk to the man in the cabin about fishing, he will give you the Super Rod, which allows you to catch Water-type Pokémon at much higher levels in the rivers, lakes and seas you encounter on your journey.

Surf in the water off Route 12, then cut the tree and walk up to the item on the ground—Nugget!

Pewter City has the item you need to find whichever Legendary Bird you haven't had a chance to catch yet—Ho-oh in Silver, or Lugia in Gold and Crystal. Brock, the Gym Leader who prefers Rock-type Pokémon, lives in Pewter City.

1 WINGING IT

You can finally pick up either the Rainbow Wing (Silver) or the Silver Wing (Gold and Crystal) in Pewter City. Talk to the old man to get the Wing he found while training in Johto a long time ago. After you get one of the Wings, head to the Tin Tower (Silver) to catch Ho-oh or Whirl Islands (Gold and Crystal) to catch Lugia.

2 PEWTER CITY GYM

Brock and his single Trainer use mostly Rock- and Ground-type Pokémon. There are no surprises in the Gym, but there are stone-cold Pokémon battles.

POKÉMON TYPES:

If you have a Gloom, you can trade it to the man in the Pokémon Center for a Rapidash. In Crystal, the man will ask for a Haunter in trade for his Xatu.

Route 3

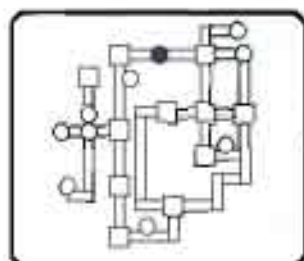

Route 3 leads to Mt. Moon, where your Rival is waiting, ready to battle. You'll run into a handful of Trainers with Flying-, Poison- or Fire-type Pokémon, so you might want to backtrack to Pewter City before continuing on to Mt. Moon.

Mt. Moon

Situated directly between Routes 3 and 4, Mt. Moon is a small but important part of Kanto. It's the only place you can catch the elusive Clefairy, but you might have to stick around all night before one shows up!

RIVAL! BATTLE 6

When you enter Mt. Moon, your Rival will immediately come up to you and challenge you to a battle. His Pokémon haven't changed from the last time you saw him, but every one of his creatures is over Level 40. Try to have several Pokémon over Level 40 as well.

RECOMMENDED POKÉMON TYPES:
FIRE, GROUND, PSYCHIC

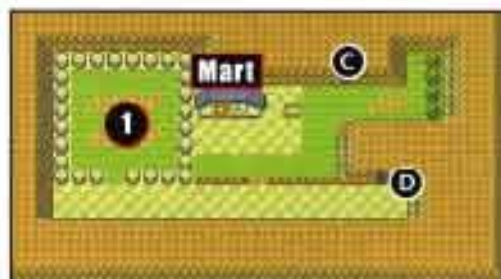

1 CLEFAIRY'S DANCE

Every Monday night, the Clefairy do a pretty little dance in the square. Pay attention to the rock they dance around—if you break it immediately with Rock Smash, you could find something really cool! If you

don't have Pokémon with Rock Smash at the time you won't be able to return to pick it up.

Route 4

Route 4 is a sort of one-way street—you can go from Mt. Moon to Cerulean City, but you can't do the opposite because of the small cliffs that make up the route. Only a few Trainers will challenge you on Route 4.

Viridian City

The first time you wander up to Viridian City, you probably won't be able to find the Gym Leader, Blue. Talk to everyone in the city to learn that there's a clue to the Gym Leader's whereabouts on Cinnabar Island.

1 A BATTLE A DAY

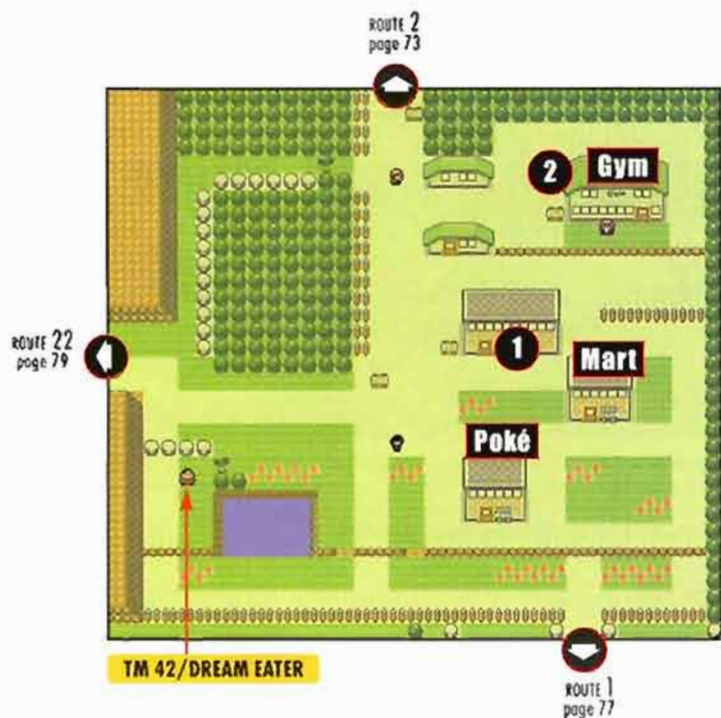

The Trainer House in Viridian City is a good place to train. You can participate in a battle there once a day. If you've recently exchanged Mystery Gifts with someone, that person will be the Trainer you face in the Trainer House. Otherwise, you'll battle a Trainer that has three Level-50 Pokémon: Meganium, Typhlosion and Feraligatr. You can fight only one battle a day, so make it count!

2 VIRIDIAN CITY GYM

You won't see anybody inside the Viridian City Gym the first time you pass through. You have to head up to Route 1, across Pallet Town and down to Cinnabar Island, where you'll find Blue.

Later: After you've made it to Cinnabar Island and talked to Blue, he will head back to Viridian City Gym so you can fight him. He is a formidable opponent—make sure your Pokémon are battle-ready before you challenge him.

GYM LEADER: BLUE

PRIZE: EARTH BADGE

RECOMMENDED POKÉMON TYPES:
DARK, ELECTRIC, FIRE, GROUND, WATER

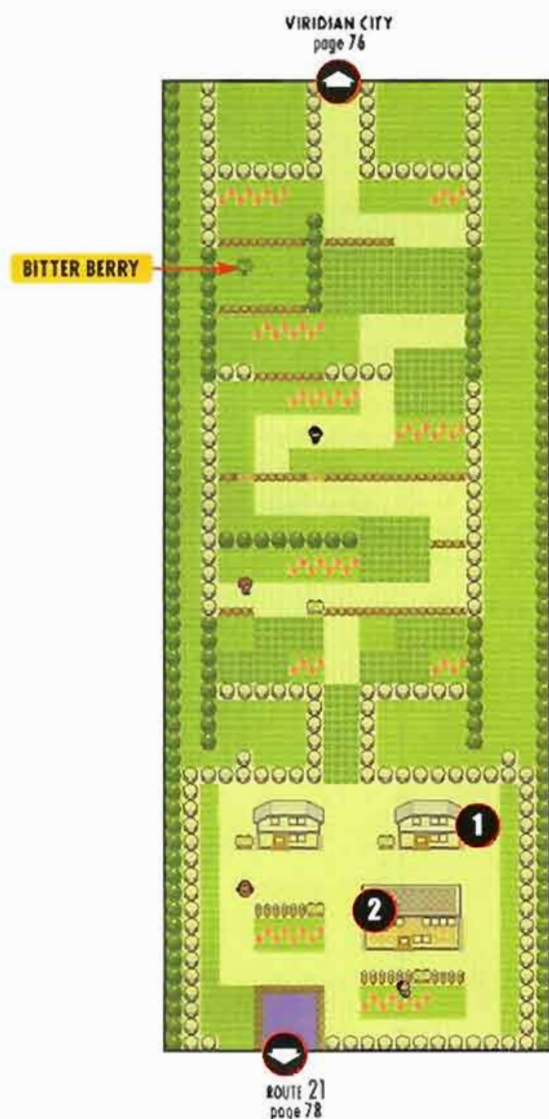

Blue has a terrific team of Pokémon covering many different types. Bring along a team with several Pokémon at or above Level 50, or you might not make it through the battle. Use basic type matching to defeat Blue's team.

Pallet Town & Route 1

The current Pokémon Champ, Red, is from Pallet Town, as is Blue and his grandfather, Professor Oak. Red is off on a trip, so you won't be able to challenge him just yet. You can visit Professor Oak in his lab, if you'd like.

1 HOUSE OF BLUE'S

Blue, Viridian City's Gym Leader, is from Pallet Town, and his sister still lives there. If you visit Blue's House from 3 p.m. to 4 p.m., Blue's sister will groom one of your Pokémon. Pokémon love being taken care of and prettied up, and if you groom them often, they will

become more attached to you. You have to visit the house at that specific time, however, or Blue's sister won't work on your Pokémon. You can have only one Pokémon groomed per day.

2 THE PROFESSOR IS IN

Visit Professor Oak's lab to touch base with the Pokémon professional. You can show him your Pokédex and get his evaluation of it on the spot. Professor Oak is interested to learn that you are collecting Kanto Badges. He asks you to return once you've collected all eight of them.

Later: Return to the Professor's lab after you've collected all eight Kanto Badges. Professor Oak will grant you permission to enter Mt. Silver through the Pokémon League reception gate on Route 26. That's just what you need—a new area to explore!

Cinnabar Island, Seafoam Island, Route 19, Route 20 & Route 21

A volcano eruption has devastated Cinnabar Island, leaving little standing save the Pokémon Center. Even the Gym was destroyed! The Gym Leader, Blaine, moved the Cinnabar Island Gym to Seafoam Island, which is nearby. If you want the badge, you'll have to keep going.

1 BLUE AWAY

You'll meet up with Blue on Cinnabar Island. He's come to check out the damage caused by the lava, and it's clear that he feels a bit depressed about all of the destruction. He will return to Viridian City Gym after talking to you. Don't take off after him—head to Seafoam instead.

2 CINNABAR/SEAFOAM GYM

Blaine moved the Cinnabar Island Gym to Seafoam Island after the volcano erupted. Surf to Seafoam Island to find Blaine in the cave-like Gym. Afterward, you can Surf across Routes 19 and 20 to Fuchsia City.

3 THE ROAD LESS TRAVELED

When you visited Fuchsia City earlier, you couldn't get to Cinnabar Island because of construction work. After you approach the road from the Cinnabar side, the work will be completed and you'll be able to go back and forth between Fuchsia City and Cinnabar Island.

SEAFOAM ISLAND

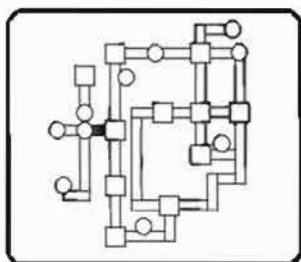

GYM LEADER: BLAINE

PRIZE: VOLCANO BADGE

RECOMMENDED POKÉMON TYPES:
WATER, GROUND, ROCK

Blaine uses mainly Fire-type Pokémon, so a combination of Water, Ground, and Rock-types will easily extinguish Blaine's flames. Blaine is a crafty Trainer, and he might surprise you with some of his attacks.

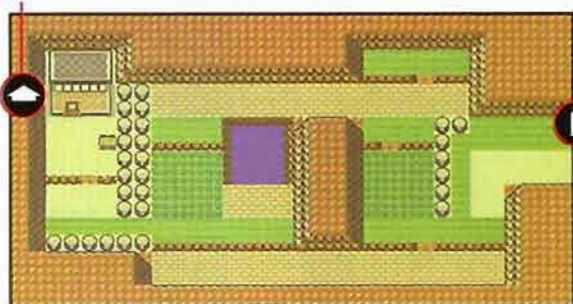

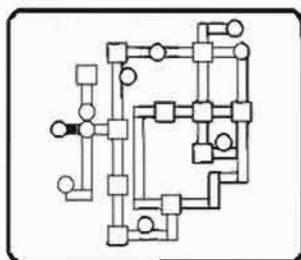

Route 22

Route 22 leads you back to the Pokémon League Reception Gate you passed through earlier on your way to battle the Elite Four. If you talk to Professor Oak after you have all eight Kanto Badges, the person who was blocking the way to Mt. Silver will be gone.

1 THE FAMOUS RECLUSE

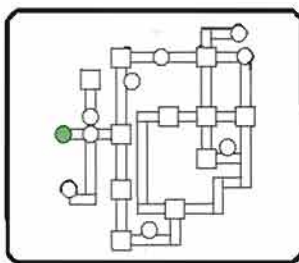

TM 47/STEEL WING

The woman in the only house on Route 28 is living out in the middle of nowhere to get away from her fans. She will be very surprised to see you, and she'll generously offer you TM 47, Steel Wing. You should probably leave her alone after you get the TM.

Mt. Silver

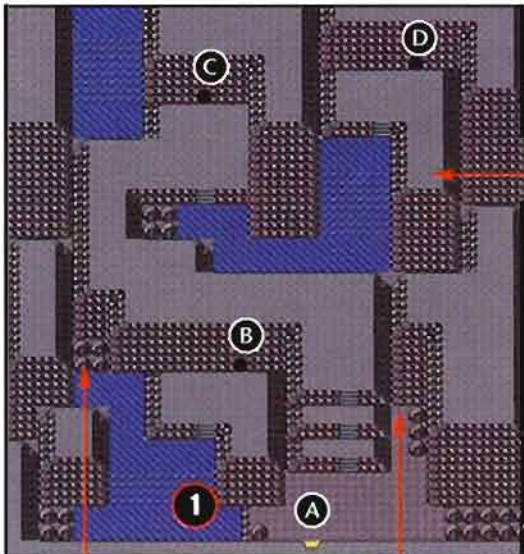

If you want to explore the entire interior of Mt. Silver, you'll need to take along Pokémon that know Flash, Surf and Waterfall. The Pokémon inside the mountain are very strong—if you're having trouble with the wild Pokémon, you're definitely not ready for the final showdown with the person waiting at Mt. Silver's summit. Train hard! Mt. Silver is actually in Johto, but you can walk up to it only from Kanto. After you've visited Mt. Silver once, you can fly back to it from Johto.

1 CHASING WATERFALLS

There are several places inside Mt. Silver where the only way to progress is to splash up a waterfall. The Pokémon that you've taught Waterfall need not be a hard-barging creature—you're going to need six strong Pokémon to defeat Red, but you don't need Waterfall to reach Red.

2 THE CHAMP

On top of Mt. Silver, you will meet the best Trainer in the land—Red. He is by far the strongest opponent you will face, and you should not underestimate his powerful, excellently equipped team. You can fight Red over and over again if you like. Return to the Indigo Plateau and defeat the Elite Four, then return to Silver Cave, where Red will be waiting once more.

FINAL BATTLE INSIDE MT. SILVER

RED

The central character from Pokémon Red, Blue and Yellow, known in Crystal, Gold and Silver as Red, is the game's toughest Trainer. His Pokémon are all Level 70 or higher. Try to attack fast and hard—the longer the match drags on, the lower your chance of winning. Your Pokémon should be Level 50 or higher.

Pokédex

Reading the Pokédex

An incredible amount of information is included in the Pokédex section. Check out the explanations below and follow them as your guide to understanding all of the numbers, abbreviations and colors you'll see in the Pokédex.

CRYSTAL ONLY

Moves that Pokémon can have or learn by leveling up in Crystal are marked with a (C). Sometimes, the moves replace moves the Pokémon could learn in Gold and Silver.

LEVEL-UP ABILITIES

Level-Up Abilities are learned by the Pokémon as it gains levels. The level at which each member of the evolutionary chain learns the attack is shown.

TM & HM ABILITIES

You can teach TM & HM Abilities to your Pokémon if you have the proper Technical Machine or Hidden Machine. A black dot shows which members of the evolutionary chain can learn the attack.

PHYSICAL OR SPECIAL

Attacks shown in black are physical attacks. Pokémon with a high Attack rating will do well with them. Attacks shown in green are Special Attacks, which are particularly effective when used by Pokémon with a high Special Attack rating.

MOVE TUTOR

Moves that a Pokémon can learn from the Move Tutor who stands outside the Goldenrod City Game Corner on Wednesdays and Saturdays are marked with the letters MT.

The Pokémon's relative stats are shown by a three-dot rating system. The example shows a Pokémon whose Special Defense is significantly better than its other stats.

GOLD AND SILVER ONLY

Moves that a Pokémon can learn in Gold and Silver but not in Crystal are marked (G&S).

RECOMMENDED

Attacks shown in red are strongly recommended for use with the Pokémon. They work well with the Pokémon's natural abilities or will otherwise benefit you and your Pokémon.

EGG

Moves that a Pokémon can hatch with are called Egg Moves, and they're marked with the letters EG. All stages of an evolutionary line can retain the Egg Moves the first stage hatched with, but only the first stage hatches from an egg, so only the first stage has Egg Moves listed.

Mew and Celebi don't appear in any of the games. The only way to catch the two Pokémon is through Nintendo.

Pokémon Locator

The Pokémon Locator is a complete guide to the places in both Johto and Kanto where you can catch each Pokémon. The Pokémon are listed alphabetically, and their relative frequencies in each game at the three times of day are included. Icons, colors and abbreviations explain how, where and when to catch each Pokémon. Study the key to understand the listings.

AREA

Each area the Pokémon appears in is listed in the Area column.

LEVEL

The level or level ranges you can expect to find the Pokémon to fall in are listed in the Level column.

MANY, FEW, NONE

The Pokémon's frequency within an area at a given time in each Pak is represented by M for Many, F for Few, N for None and R if you need to use a rod to catch it there. Each rod catches a set level of Pokémon. A handful of Pokémon change frequency after a phone call.

M	MANY
F	FEW
N	NONE

Battle Tower

The Battle Tower is found only in *Pokémon Crystal*. It tests a Trainer's ability to catch, raise and battle Pokémon of many different levels. There are 10 levels in the tower, and each holds seven Trainers with teams of three Pokémon. You'll win great prizes at each level of competition.

Battle Tower

Pokémon Trainers up for the challenge can build teams to take on the talented Trainers in the Battle Tower. The battles are not easy, especially at the lower levels, where one hit can take down a Pokémon. You have to use the same team of three for all seven battles in each level of the tower. You can use different teams at different levels.

PREPARE FOR BATTLE

The opponents in the Battle Tower have very fast, strong Pokémon—they're harder to beat than the creatures you meet in Crystal's normal battles. When training your team, select the strongest Pokémon you can, then use at least five of the helpful items like Carbos and Protein on each team member. It's expensive, but it will help you win.

RECEPTION

Talk to the person in the reception area to learn more about the tower and to start a new challenge.

SELECT LEVEL

Select the level that you want to play. You can have only three Pokémon for each battle.

BATTLE x 7

You'll battle seven Trainers in each room. Your Pokémon will be fully healed after each battle.

GET ITEMS

If you win, you'll pick up 10 items such as HP Up or Protein that will help you in the next round!

HP UP x5
PROTEIN x5
CARBOS x5
CALCIUM x5
IRON x5

Winning is easier with the help of items like Iron and HP Up, especially at the lower levels of competition.

THE RULES OF BATTLE TOWER

- 1 Three Pokémon may enter battles.
- 2 All three must be different.
- 3 The items they hold must also be different. Held items are the only items allowed. You can't use items on your Pokémon during battle.
- 4 Certain Pokémon may also have level restrictions placed on them.

CHALLENGE EVERY LEVEL!

You can challenge any level at any time, and you might want to start with the middle levels first—the lowest and highest levels are inherently harder because of the weakness or strength that Pokémon have at those levels. Challenge every level if you dare!

LEVEL 20 ROOM

At Level 20, one-hit knockouts are not as common as at Level 10, but you still need good Defense and Special Defense and plenty of Speed to do well. You'll need to raise the Machop from an Egg if you want it to have Cross Chop, but Alakazam and Nidoking can learn their moves from TMs and the Move Tutor.

LEVEL 30 ROOM

You'll rely on Exeggutor's Psychic for many of the battles in the Level 30 room. While you won't use Sleep Powder much, if you do, remember that you'll have to keep the move on Exeggutor, as Exeggutor doesn't learn the move. Machop's Cross Chop works well in the Battle Tower's lower-level rooms, and the ability should be even more effective when Machamp uses it.

LEVEL 40 ROOM

Breed your Houndoom to know Crunch, then use TMs and the Move Tutor to give it its other moves. The Move Tutor can also help Dragonair with Thunderbolt, and TMs can teach it Toxic and Dragonbreath. As in all the rooms, it's important that you train your Pokémon carefully and give them as many items like Protein and Carbos as you can afford.
